## **Introduction to 440 KSW Quick Index**

This workshop is a "hurricane of knowledge for positive change." We are very fortunate to have been given this opportunity to hear it first.

What came to me as important was that, here we are suffering in our low state of understanding, and only thinking about how to escape, as we discover more and more, how trapped we really are. Sometimes the ignorance can feel so dark and impenetrable. Then in this KSW Mr. Keshe said, we would all commit suicide if we knew what a beautiful life was waiting for us on the other side of physicality.

But then today, he shot an arrow into our hearts, to forget about trying to escape. Do we want to take an uneducated soul into the U? How will an uneducated soul be able to serve the others?

We never really accepted that our soul will be born at the death of this physicality. Well, that's one of the options anyway, there are others. In a way, we have a responsibility to gather as much field strength as we can to mature our souls, to be able to serve the Creation in a better way. It's the same way we do it in physicality, when we study to become a doctor to expand our knowledge and better help others.

If we could just believe that it is true, that all this suffering has a meaning and a greater purpose in the Big Picture of the U. With this attitude shift, our whole life would change. We do see this, especially among KS who serve, and serve without thinking much about themselves. They seem to naturally know this without speaking about it. Maybe we can absorb some of these fields.

This leads into another topic, that it is not our fault that we ended up like this, as killers and energy thieves. When the planet was created it did not have enough field strength to support the life it created. Therefore, we found ways to survive by taking energy from others. Over time this developed into a hierarchy of control. It became institutionalized as we see it today. The ones who were more intelligent took control and prevented the others from getting the knowledge.

So nobody enslaved us in the beginning. It was a natural development on this planet. There are many planets like earth, that fail to support the life forms they create. But it seems, according to Mr. Keshe that we on earth learned how to control and kill to a very high degree. But now all that is going to change, because Mitra came here and fell in love with the way the creatures on earth love each other. So even though we are killers, we are also lovers. Remember nothing is black or white, it's a mixture of conditions and we have

to learn to understand the conditions and how they operate, not living by a narrow mental concept.

So now here we are about to go from the depths of "Hell" to the heights of Heaven. For a lot of people this is going to be very difficult to grasp, to understand, to accept. This is where the new flight EU that are being upgraded this week in Linz, to be able to do the transmutation and transportation, comes in. At first, we will transport from one EU to the other in the flight room. This will be the shocking proof, that all we have been taught, is indeed true.

To help in this transition 3,000 new Enhanced Plasma Energy Units are being released as soon as possible around the world. The enticement is that, they will reduce the electricity consumption, but for KS it will be to elevate our Souls and create the Dome of Peace across the planet.

Okay we have covered a huge amount, try not to get overwhelmed, but stay with us. It's being presented in a simple way, you just need to ponder it over and over again. The change is here, now, and we are called to be part of it. The children of the Creator and Mitra are being born on Earth through the Soul, and it will be the start of the perfection of the U. All that was promised in the holy books of earth, has already begun on 6th of June, 2022. "The children of Mitra are amongst us, it is for us to find it out." There is nothing to be afraid of in all this. It is beautiful and wonderful and we are a part of it. It is happening in a gentle and loving way that everyone will remain safe.

There is also the story of the Persian Prince who thought he was a cow and wanted to be slaughtered as a cow. How gently the simple physician gradually healed his mind with the true knowledge. This is our story.

Then there are the Vertical People who are already living like those in the U. They absorb energies from the environment and live from it, and then give huge amounts back to the environment, so that the beings there can also live. We can learn how to live without killing from them.

There is much more, but the workshop ends with Mr. Keshe explaining how he came to be a Messenger. How he turned it down twice so that he could mature, and gather all the experiences he needed, and that he would not end up like the prophets of the past, who were not quite mature when they received the light. Yet another perfect example of why we should strive to perfect ourselves, while still joined with the physicality. Then when the Soul matures, we'll become a perfect star in the Unicose.

Thank you so much for listening. May all of us, our Souls be elevated.

END 440 KSW

## **Quick index**

Some KS said they can commit physicality (P) to world peace, but not the Soul, because it is committed to Christ; Is our Soul committed to anything or anyone? Or is it committed to itself, to be peaceful; Do we accept the total freedom of the P and the Soul - (not to be abused in the name of some belief or brainwashing, which means we haven't ourselves deeply investigated what we believe in).

(Is the STM contained by P? Does a star, its light and beauty in the depth of universe, have a limitation in how far its light can shine? Or is it point of view of the observer, that allows it to be observed?)

(In the present Man the P contains the STM, now with the development of the new technologies, we reverse that process and allow the STM to contain the P. The STM is like clothing over the P.) What will be the future of the man?

(We are closed this week for upgrading the systems to the new developments. People who have already been through the system in Linz will come and go through the newly developed systems.) Then we'll have new dimensions (D).

(Many of you who have been through the system tell us of feeling the energies extending outward, with the P now being inside, and that you can instantly connect to the system in Linz when you are away from it. They also say, they immediately get to the position where they want to be. But the reality is, as we learn more and more, do we need to dictate the position, or do we just wish and then achieve the position.)

(If you valued your fathers advice, but he is on the other side of the world, or he passed away. From what you learned with the system in Linz, now you can meet with him to receive his advice, if he wants to. )

The limitation of enslaving the STM is over. A UC member and others say, that what they wish, happens. This means that now we can dictate the light. We can endeavor to understand the knowledge, and endeavor to see the beauty of the universe, that is, we are part of. Even though we never considered ourselves to be part of it. We have entered a new dimension in technology, where we can move the energies of the universe, which our soul is part of, to another position.

In a way, we have completed the knowledge. (We came from the matter state, then changed it into a Gans, into energy state, from which we can make anything we like. Now, we have managed to free the STM, to make and connect it to what it likes.) We can go see our father on the other side of the world without having to spend hours on a jet plane. With the new technology we go to, we don't fly to, because we appear there instantaneously.

When you want water, you stretch your arm, and take a glass and drink. We are creating the same condition with the new understanding. If you want to see your father, you free the soul and extend it. (It doesn't matter if he is in a physical dimension, or he is a star in

the center of another solar system. If he became a star, it's because of what he did during his time on earth, serving the humanity.)

(When the people go through the process of the new flight system we will not see the P, but rather we'll see individuals as lights. They'll light up the room as the souls gather strength and trust to manifest themselves. Then in that process, and according to our wish, we'll be able to transmute our soul to a given position. It will arrive in the dimension of the light in the system. With the new progress in Linz, we have achieved, will achieve, and deliver the transmutation of the STM.)

(Mr. Keshe taught before about comparing a plasma to turning a sheepskin inside out so all the hairs are like the fields coming out. Here he says, this means we turn this sheep skin inside out. Where the skin was covering the soul, now we turn it back, the soul is free. The soul is outside and the physicality within.)

(If the man is clear enough with his own self, then he can see where the Creator, according to the strength of his service to humanity, will send him to be of service within His creation in the Unicoe. This is in the D of the Soul.)

It's like when you build a house, first you find a plot of land, then you dream up what you want to do with it, and then you build it. Those who are clear in the dimension of life, can use the T in Linz to see the plot and the house, or what we call, the destination of the Souls in the Universe. (You can see if you are to become a star of a Solar System, or a dust in one of the planets. It is all due to what you have done with your life on this planet.)

I have delivered, (all that) I promised you.

In the "Cycle of Creation" video that was played in the intro, it says, what would your soul create?

For the first time Man will have the opportunity to change his behavior. (Because he will be able to see where his soul will end up, and what plot will be allocated to him. At the same time he will be given the opportunity to change his cycle of life. And if he feels another position would allow him to serve better, he will be able to change to that.

This freedom to choose allows a better cycle of creation, for life in the Unicoe. You are allowed to evolve and educate yourself in your physical dimension. For example, in your physical life if you want to study to be a doctor or professor, rather than a plumber, man will now have the chance.

These systems in Linz are not just for you to come and dream. They're for gradually showing you where you're destined for and what your future holds for you. (You'll be able to decide while you're in the dimension of physicality what you want to do. This is before the Soul and P depart from each other. Or, if you want, you can still embed the

physicality inside the STM and journey to where you're destined for. If you want to serve better in the dimension of physicality, you change accordingly.)

Now, the physicality remembers the dream of the soul. (The soul doesn't remember the dream of physicality. Now, man has the opportunity to bring that position forward.)

As I said before, if I showed you everything in one go, you would all commit suicide to get there, because you think, that by ending the physical life, you would reach there. (But in fact, it is the opposite. We show you this, so that you will extend your physical life here on earth to create a perfect soul. To create the conditions for your soul to achieve the best of its ability, in order to serve in the dominion of the Creation and the Creator.)

(Do you want to let your soul travel through the U uneducated? Or do you want it to achieve the best it can by educating itself to become, what in the D of P, in the Man's world you value as a doctor or a professor. Your Soul can become that "professor" in the dimension of the Unicose.

This is the purpose of these systems. It's not just for you to come and dream, and go and see the family members who passed away, etc.

Recently, I invited one of the richest woman on one of the continents of Earth, to come into the system and see if the wealth she has gathered is in the dimension of physicality. And see if she has actually gathered any wealth in the D of the Soul. (Then we see how people will handle it, and if they will change their lives. We'll see how people of humanity as a whole, will come into the systems?)

People are trying to use the UC members to reach to the system, so that they can elevate themselves. (This is the process, in which we actually become, and the Soul of the UC members become, an Enhancement Unit. They become a point of reference for man to see through their souls, the life of the creation in the Unicose. That's why we call them, a Universal Council.)

Three new members of the UC will be joining this week, bringing the number to 27, of the major languages of the world, with some 70, UC Supporters to back them up. The Council is being extended to support the soul of humanity during this time of transition. The time of the knowledge has started.

We established the UC for the day, like today. (We are asking UC members to come to Linz to share their souls, and through the soul of each other, to connect to the rest of the soul of humanity and the U. The UC members are making their way to Linz, to go through the process with the EU. The whole process of the interaction and elevation of the STM has started.

The simulation system in Linz is not simulation for physicality, it's actually the method for flight in the universe. But man is too blind to see. Listen to the testimonials and then

you'll understand, that again you missed the train. You were just looking at the physicality of flight.

The whole purpose was to show, that we can extend the soul to become independent. (Now that it can and is being repeated, people are connecting more and more.) Now the souls will shine. Now, we will see the essence of the Creation. This is the reason we built these systems.

The power of magnetism and magnetic fields and has been around man since from the time of the creation of this planet. It took thousands of years and centuries, for man to educate himself how to use these hidden fields to create the energy you call, electricity.

Now, it's the same with Enhancement Unit flight simulation, it's to understand the energies, which the STM creates, and what light it will create, and what it can be used for in the field of strength in the U.

It's a pleasure to share this knowledge with you. It's a pleasure for you to understand what is about to happen to the man. You have had the cars and the donkeys and the UFOs to carry your physicality. Now, we give you the Enhancement Unit to travel with the STM, which has no D.

It's not there for you to share the dreams. Those of you who come and share the dreams, you'll find out, that you connect yourself to the system for eternity. In a way, it becomes the Earth's soul in the dimension of the connection for the souls of the man, who live on this planet in a different structure then physicality.

The Enhancement Units, which are built as a simulation, are the twin stars of the Soul of the Physicality of the Totality, of the Soul of the Man on this planet. Then, you understand how the process has started. What the next step is. How we allow you travel step by step, the soul travel, the physicality travel.

In a very short time, many of you who went through the process of the Enhancement Unit simulation system, (will find out the while you are present and actively doing a lot of things, your physicality is sleeping. You come back and you see the P is there where you left it. People will say to you, that you were asleep, they heard you snoring. But in fact, you say, I was awake, I was doing this or that, because the soul is doing it, and physicality is in position (staying in its place).) In a way, physicality needs its time to rest, while the STM doesn't need to rest.

(The whole purpose of the Enhancement Unit is for you to become aware of your soul, and what it can do.) You can see your Dad anytime you wish. You don't need to go to the other side to see the mom and dad.

It's like you've been locked in a room in the house, while everybody else is doing what they want. It's you who has been locked out. Because you've been a naughty child, and

have not done what you were supposed to do. You did not understand the rules of how to behave.

Now, we open that door. You will make some mistakes, there will be some adjustments, but overall, humanity will reach that point. The new enhancements units, which many of you will start going through from next Tuesday, will show you a new D. We will bring you to experience and live a new dimension. That new dimension will not start while you are in the system, but when you leave it.

You have found an access point, which you can go through to any position in the dimension of the Creation. Earth is not anymore one thousand light years away from another star. You instantaneously arrive at that other star.

We do not disclose the designs of the system, because mankind is not even ready to understand the simplicity of the process. It's the complexity of the knowledge, that leads to simplicity. I have made this knowledge so simple, that anyone can do it. But no one can do it, if it's not the right.

You will see in the new Enhancement Unit - new features, new understanding, new elevation levels, more closer. Those of you who come to see, to be, to feel the presence of the Prophets of the God, you shall achieve it from now on. If you have put yourself to be in the position of the direction, that you have been true to your belief. (So it doesn't matter which path of belief you follow, as long as you are true to it, and love it with your whole heart and soul.)

Many people they tell us they feel the presence of Christ, or (other prophets.) With the new development, we allow you, and give you the opportunity to sit with them, and to be present with them. You can to bring man the message, which they truly gave to their followers.

There's one thing for sure, and that's for sure, we'll see the end of Catholicism. (We shall see the end of many religions. Because now we will see the 24 Commandments with our own eyes. They will not be filtered the way it was done in the past, to abuse mankind, by putting aside or destroying part of the message, and the other things they did to suit themselves. The 24 Commandment given to Moses was written in the pen of the soul, not on the stone.

(In the new way, or new science, we can interact with it and bring the changes. It's no use trying to overcome and change the "global warming," by capturing the CO<sub>2</sub>. With the new system you won't need the cars or to burn the fuel, to create the CO<sub>2</sub> in the first place. Then the planet will heal itself in time.)

The revolution in science coming from the teachings and the work in the Linz will fundamentally change the life of the Man. New technologies will emerge, that are in the science of the universe, and not that of the Earth. We are the cause of it and we'll bring it out for you to develop it.

In the next few months, new sciences will appear out of nowhere, like how the computers came out of nowhere, and we all got used to it. We'll start educating our children in the knowledge of the universe, not in chemistry, biology, or the color and structure of the physicality.

In the next few months, as we lay out more and more advanced systems in Linz and then spread it around the world, we'll see the emergence of universal knowledge, universal education, and universal understanding of the work. Our children will not speak about going from London to New York, they will speak about going to another planet, or another satellite for lunch, and then come back home. (They'll say, Mom I've been to such and such a planet. Of course, we'll believe them. The important thing we all say is, did you enjoy yourself, did you learn something from it. What gift can you give us from that knowledge? We don't even need the verbal words to communicate. The soul of the child will enlighten us with the knowledge they gathered on their trip.)

The systems in Linz are the gateway to the universe, to enlightenment for the man to understand, that the Soul of the Man has no limitation.

To the Italians, how many of you have written to Vatican and invited the Pope? How many of you have asked your priests and religious leaders to come and test the system. They will say, no, something is wrong. (This is from the "devil" or the antichrist.) Because once they go in, they find out they have been "anti" about the reality of the soul of the Christ. As we say, the hand of false magicians has been opened up.

Invite the world leaders and religious leaders to come to Linz and meet their own soul. Then we'll see what we need to do next. It's your responsibility to do this. It's your responsibility to create the next step of the work, not us. (Our job) is to reach the soul.

We're here to teach you the mechanism for you to learn how to use the arm of the STM, to be able to create a new condition for the man. Not locked up to the physicality of this planet, but be able to travel the span of the U.

Make your way to Linz, especially UC and UC Support members, that you establish the link for the creation of the new STM for this planet, in connection with the soul of the planet, and bring that change. Bring that process of change.

We can bring you to the water, we cannot make you to drink, unless you're thirsty for the love of the Creator, and want to travel the span of the U, and unify the STM, that in Totality, the whole soul of the creation on this planet changes.

It's an evolution in the STM, in the science of the Creation and the universe. You have no choice, the seed is sown, and it's growing, and with it comes the whole process of understanding the process of Creation and the Creator.

(Why in the depth of the work on the Enhancement Units Simulation system, did we suddenly launch the Enhanced Plasma energy systems? The reason is we saw a need to expand the plasma. We already gave you the MaGrav systems which you didn't understand, (but were part of this process). You will become a Sun or a star in this system (of plasma fields).

We needed to introduce a powerful power system to be able to go through the transition of the both the physicality and the STM. We decided to let the humanity enjoy the trip. The new energy systems are not just for powering your house, it's the first step in allowing your soul to find a new dimension, and be ready for the transmutation and transportation in the coming time.

I kept on telling you for years, that I'll give you the dimension and beauty of the MaGrav. But you were just only interested in saving some electricity. Now with the new MaGrav system we guarantee you 50% reduction (in electricity.) But this system was actually created for the elevation of the STM, energy of the cosmos.

The new power generation unit will come with attachments in the next few weeks, that can literally feed you, and do everything else, in addition to saving you energy at home.

It's the beginning of the cycle of connecting to the Linz Center. It's the key to bringing the matter energy and the universal energy together. Where you connect both to the energies of the house, and the universe. (This is how the evolution of the man will come into operation. These are like those portable generators to light your house in the middle of the desert, only they are there to light the STM.

It's worth millions, and it's been put out for nothing, for man to go through the transmutation. It's the first time we released this technology in a very simple way, because man makes everything so complicated.

When you buy, or get the new Enhanced plasma power unit, don't look for reduction in your electricity bill. Understand that you have brought the first step in the passage of the elevation of your soul.

(This system can be there all the time, but in the matter state, it might look like it's not working. It's there for you to achieve the elevation and understanding of the STM for yourself.) You don't need intermediaries, you don't need prophets, you don't need messengers. This is why in my papers I wrote, the scientist are the messengers, because with scientific development, we finish with the theology of the mystics. You're in charge, and it can be repeated, then it's not mystery anymore. (You) cannot be manipulated anymore.

This is the first step for you get into that system and understand, that you can live a dual life of both the STM and the physicality.

We promised the man he would become aware of his own existence. Only because you are interested in saving electricity, do we guarantee a certain percentage of reduction in your electricity.

This is the gateway for those who want to go to the next step in the D of universal energies. I gave you the cake and you went for the crumbs. Now you have the crumbs, and the cake is on the table. But you have to understand how to use this cake, not only for the soul, but to support the physicality in the same dimension too.

You were blind to the sight of the soul. Now you shall see it through the eye of the soul. You do not need the electricity to light up the room. The launch of this new system is so fundamental, it will change the whole structure of the humanity in the coming time.

They say the most important discovery in the evolution of science was the creation of the wheel. Because man could carry more weight. The evolution in the STM and the new life for mankind, is the sphere of the rotating plasma, but this time it rotates on its own with the energies of the universe.

In the coming time those of you who go through the Enhancement Unit, because we created the facilities for it, you will become the light. You will become the use, and elevation, and manifestation of your soul. No one needs to confirm, or deny it. Because you become aware of what you will do, and your life changes because of it. And the people who you touch in the dimension of the soul, will change from it. Because now you give them a new energy, you transfer a new dimension to them, you feed them with a new strength.

The process of the transmutation of the soul will come through the understanding of the new knowledge. Those of you who listen today, or in a month's time, or in years to come to this broadcast, it's your responsibility to understand, that you have been given the same light, as the light that was given to Moses on the mountain. The same fire as the others saw. Now it's you who is responsible to turn that fire on, and meet it, and perfect it.

But this time, don't cheat, and don't break some stones, because it doesn't suit you, or because you want to abuse the others. Because you got to understand, that the whole of the creation of humanity, now has access to the same fire, and to the same light on the mountain. That light is the light of knowledge of the Creator, and nothing else. It's not a burning bush.

Now the knowledge of the man has reached the level of the prophets of the past. Because now you understand, that the knowledge came from the light, which now you have access to. There can be no Ayatollahs, and there cannot be any Pope's, and no pups. Because you see the truth. You see the elevation of the STM in his own dimension, and not through other people filtering to suit themselves.

It's my responsibility to make sure everybody gets access to these systems around the world. This is why we setup the KF manufacturing. (Then the people do not need to go to

the churches to hear the tainted words and wishes of the man, by those who abused the man through the Book. Now they can go and see the light by themselves (and in themselves).

Now you understand my process of teaching, and why we taught as we have done. We brought you step by step to this point. We brought you step by step to see the beauty of the creation, (so that you can touch it, feel it, and enjoy its presence.)

Linz is a place of knowledge, and it's your job to come and learn, and then share this knowledge with the rest of the humanity, and the creatures of this planet, and beyond. As I said last week, man up to now considered himself to be sitting on a donkey, and the other creatures of the universe were having the UFOs. Now with the knowledge we have given you, man has become the holder of the knowledge of the Creation, and those in the UFOs, are those who are sitting on the donkey, envying you, how simple the Creator has shared the knowledge of the Creation with the man.

(In the time of the manifestation of the P of Mitra, in the D of his children, the whole Universal Community will come to Earth to see the beauty. They will wonder why, After all the wrong things the man has done, was this gift has been given to him.)

The reason for it is only, because of the beauty of this planet and the love of Mitra for its dimension and condition. She brought the Creator, as a lover follows, to see what the other lover has seen, to share the same beauty and love.

Go back to all the teachings, and if you understood them, you can build the flight Enhancement Units. But the secret is in every word and every sentence, and not just in the dimension of physicality, of putting something together. Understand, that the time of the evolution of the science has come. The Man has moved to a new D.

This is one of the reasons why the King of Belgium with all his might, bribed the others in public televisions and radios to block the Keshe Foundation, to not be shared across the world. But the only thing that stupid man never understood, was the fact that, we communicate through the STM. We'll reach the STM through the world communication of the universe. Not through a meager light flashing on the screen somewhere to make a picture of a shameful king.

This is why we are not bothered by it, because once you start coming, seeing and interacting, who needs television and radio, because you will be able to visualize the of the reality (create the reality). You will be able to see and feel the presence of the Christ. Then ask them if they can show you a television, which can do this.

We have entered a new dimension, and you have brought and educated yourself further in this process by the totality of understanding. Our work has not finished, it has just begun.

I'm not worried about what happens physically to the KF structure around the world, because now we're building the KF within the STM. It's the freedom of the soul, that is building everything around it.

As more and more of you go through flight Simulation System we create the dimension of a Star Formation (SF), and this allows us to become the center of the Knowledge and communication with the rest of you. In this process, the knowledge sharing will become instantaneous. Soon you will understand what I mean.

Soon you will understand, that you will not need to go through a medical school to become, or to have the knowledge of a doctor. When your physicality needs one, you simply extend the STM beyond the physicality, and you will see the change in the D of physicality, without any medicine. We have seen this with a number of KS who went through the system. They never told us what their condition was before entering the system. When they came out they said, the changes happened. Because the soul has expanded beyond the dimension of physicality. In bringing balance, it changes everything.

People who had too much pain to sit in a certain position, now could sit. People who were blind or had vision problems could see. This occurred for all sorts of conditions. When the plasma of the STM expands, everything inside has to come into balance.

We are not giving you a wellness system. We are giving you a universal flight system, and in that system everything has to be perfect and your physicality is part of it. It's what we call, the life of the soul, and the soul always looks for perfection, for correction. And if the Soul of the Physicality (STP) allows it, the change will be brought. Come with the love, not wishes, then you understand what will happen to your physicality.

We are interested to know what you've been through in the system, so that we can tune it. In the next few weeks, we will not ask any questions, because the system will be perfect for delivery of its work. It's you, who has to know what you achieved from your journey.

(Back during the time when I used to make Cups for people with all kinds of conditions and pain, I would ask them to drink the water from the Cup. After a time they used to come back and say they forgot to drink from the Cup or breathe from the breathing system. They were apologetic because they thought they did something wrong.)

I used to tell them, that they can now bring the Cups back, because they finished the process. When you don't need it, you don't use it. It means we have achieved what we came here for. When you don't feel hungry, you don't eat. We have brought the system to a balance in the dimension of physicality.

To them it was a bad news, but to me was the best news, because it meant I achieved what I set out to achieve for them. I was waiting for them to forget to drink, or to use the system, which meant they didn't need it anymore. They achieved their goal. They would say, yes, you are right, everything has changed.

Now, it's the same way with the Enhancement Unit. We create a condition, but it's you who has to understand what has happened to you, and what you have achieved.

(But people usually cover themselves and say, "but I came for world peace," or this or that. But subconsciously, they have many, many, many, many, many, many physical problems, and emotional problems. Consider this when you leave the system. Did I see any world leaders to create the world peace? (But I gave from my soul. But then they recognize, that this, this, and this, has changed in me. I know something I didn't know before. I have different dimensions and positions with the rest. )

(There is an old story in Persian culture, where a prince thought he was a cow and wanted to be slaughtered like a cow. The King brought the best physicians, but nobody could do anything for him. The prince was to be the next king, but now he had a severe psychological condition, where he thought he was a cow and wanted to be slaughtered.)

Then comes a very simple man who was a physician. He hammered a stake into the ground and tied the prince to it with a rope around his neck. He said to the prince, "I bought you, but I cannot sell a skinny cow in the market, so you have to fatten yourself up, that way I can get my money back for what I paid for you. And then I will slaughter you."

In the process of the prince wanting to become fat to be slaughtered, the physician gave him medicine, he gave the knowledge to his body. Then one day the prince says, "what is this thing around my neck. Why am I being chained to this stake in the ground." Then the physician explained, that in a slow way I brought you back to where you should be.

This is what I've done for humanity, today. In the small amounts of knowledge sharing, and step by step, I have brought you to see the beauty of the man in the world of Creation. This has been my job, and up to now we have fulfilled it. There's more to come for this "cow" to be released, to enjoy the pasture of the U, and not to be slaughtered, as that is what he made himself ready for.

The knowledge in its totality has been given to you through teachings and in the books. It's for you to decipher it. (If you cannot do it, or you do not have the time, then you need to get someone to help you.) It's like when you are at home and you want to make a beautiful Chinese food, but you don't have the time or the ingredients, then you order Chinese or go to the Chinese restaurant.

Many of you do not have the collective knowledge to build what we have built in Linz. It's for you to order it to get it, or find a way to access to it. Because once you get the new knowledge, then you can "cook" for the others. This is the process we are in now.

We have brought you a new pasture, a new feed, and a new way to feed your souls through the technology. It's for you to learn how to use it and extend your soul beyond

the prison dimensions of, "needing to travel 10,000 light years to get to another star." Now you get there instantaneously through the fields of the U.

If you can see a star in the skies, you can be there instantaneously. And you can ask the person next to you, to go together with you, then you both enjoy the presence of time. Like when you go on safari during your holidays, when you come back you talk about what you have seen and experienced.

In the short term, the biggest problem for most of you will be to get the others to understand what you've done, where you've been, and how you did it. Then they will come to accept the reality of traveling by the soul.

The whole knowledge has been shared and put in the system to share. It's not anymore mystical or in the realm of theology. The biggest problem comes when, with this technology, we close the door of theology, that mankind cannot be abused.

The process of the change, for the race of Man started 3 or 4 weeks ago. You have not yet understood what a huge tanker has hit humanity. It's a hurricane of knowledge, to bring positive change, and to bring a new dimension.

It's the responsibility of the UC, and UC Support members to make their way to Linz, because you're there to support the transition. It's also the responsibility of those who are devoted to serve humanity through dimension of reality, and not by collecting this and that, to make your way to Linz, and bring that change.

You become the candles, that when they are put together, it lightens up the whole stadium. That stadium is the humanity, and the soul of humanity, to see itself through these troubled times.

I won't give up and I will not stop. But it's for you to make sure, that you don't give up, or just wait for the time when you die, for the soul to be free. (At that time you will have no choice of where you go. Whereas now, by understanding the process, you can see where you're destined to be, and if you feel you can serve better in a different position, you can change it.)

In a way, you become the prophet of yourself and your soul. You don't need any preachers. I have freed you from the shackles of what I call, imprisonment of the STM, it's you who has to take the soul to (be where it wants to be,) not me.

(If I go in the dimension of the Soul, what will you, the little children of man do till you reach that point. For that reason, I still keep busy with this and that, because we need to guide you. We need to bring you to the point, that you will reach the point of maturity and understanding.)

Now you understand why we gave you the MaGravs, the Enhancement Units, and the Vision Enhancement Units. But now the most essential thing for most of you, is the new

Plasma Energy Power Units. It's not so much for you to reduce electricity. Rather it's very much to add to your next dimension. It's for you to do yourself, in your own time and dimension, and gradually free the STM from the STP, that the STP works with it, instead of entrapping it.

The STM is like a plasma inside the Tokomak, and the STP is that magnetic field, which keeps that plasma in Tokomak, or in CERN encapsulated. They're hoping, that they increase the STP so much, so that one day the Soul will explode, and when it does, it creates the energy of the universe. (This is what I am giving to you now, but in a very simple system. You do not have to go through all this nonsense.)

You decide (the time). You are not trapped within the STP. Now you understand why we launched the new plasma Energy systems, and why we launched the flight Vision Simulation. It's the vision to see the universe, and not for your eyes to get better.

I hope I opened a little gap in understanding what is here, and what is to come. (In the past we spent 2 to 3 years teaching you about the Soul. Part of the teachings now will be about how to use this system, what to expect, and what it is. It's no use giving you a car when you don't know how to drive it. It's no use for us to release and make accommodation for your soul to be free, when you don't know how to use it.

We noticed this in the flight simulation trials, where people went through all the Chairs, 1, 2 and 3, and they said they felt the energy, but then they don't do anything with it. And the minute we told them, that they could travel anywhere, or see anybody they liked, immediately they did it. Because they needed guidance. Then later they decide for themselves.

I hope you enjoy the trip, and those of you who will become enlightened, will see more of it. While those of you still trapped in D of physicality, will say, "I haven't seen or felt anything." Because for them, the physical dimension is more important, than the dimension of the Soul, at that time, place and position.

### **Part 2**

Q: How did it happen that we allowed the STM to become enslaved? Why did we allow such foolishness of being trapped in the Physicality? Why did we loose control of our own STM? Could you elaborate more on this permission to be enslaved.

K- The slavery of the man to the physicality of the man, and STM, came out of the conditions of the fields of this planet. Nothing else.

In most of the universe when a planetary system creates its physicality, whether animal, plant or whatever, provides the energy for it to live through its own fields, and not through matter state consumption. But due to the physical construction of the fields and position of this planet, the created things within it were not given enough energy to live.

Therefore, physicality had to look outside for energy to sustain itself and be continuous. (Earth is not unique in this condition, it's the same with most of the planetary solar systems.)

(In the process of developing the intelligence, when man and animals slowly understood, they gradually over time began abusing their position of knowledge, power, and the position of providing.) Then all the abuses started. It was the fault of the structure of the fields of this planet and nothing else. The fields came together in the wrong way and in a very absurd way of creation.

The slight tilt in this planet created a short life span. What we consider as billions of years, compared to the actual structure is not the reality.

Let's extend the knowledge so you can understand what I am trying to explain. (If you take the matter state materials you created in your experiments to a laboratory, they cannot tell its origin, which mine, or which part of this planet it comes from, like they do with ordinary materials found on this planet. That's because you created it out of the fields you made yourself, and not from the planets creation. Is it the age of the solar system, 4 or 8 billion years? )

In the future, KS and scientists will analyze the source and age of the proteins, the amino acids (AA) you produce in your Gans Boxes. Actually, it has no source, it has no D of time. (You will understand this knowledge in the future. You will be able to manipulate the fields when you create the AA, which will lead to the creation of the soul of your children.)

(How would the scientists be able to do carbon dating? Because you create the C out of the fields. It does not exist as the element of C. You created the C in the AA out of the fields, so they won't be able to tell the age by that method.)

(Another essential point is, the scientists tell us, that up to now we are 95% or 99% made of this or that animal. They haven't understood that we came from the combination of different fields and conditions of this planet. These conditions force, and enforces the creation of the heart, kidney and liver. So you are not 99% made of another animal, you are made on your own (out of the fields). You are creatures of the time and place you were created. Up to now you haven't understood this.)

So if you understand these points, what happens when I take a Gans Box to Mars, or another galaxy? (What kind of life will be created out of the conditions?)

(I have been carry a box with me for nearly 14 years, where I created some life forms. I see their soul and their P. They travel with me, because I created a new cycle of life. Are these creatures, and what you created in your AA, are they 4 billion years old, or are they 4 seconds old? Or are they created from the rays of the Creator, which is timeless and limitless?)

In science, we have accepted a lot of what I call, nonsense and rubbish. And now with this T, all that is going to be thrown to the wall. You can create the AA, which is the basis of life. How old is that new life, because the rays of it arrived on earth a few seconds ago from the moon, sun, or another galaxy and became the C in that AA. Now you understand how present science makes nonsense of the creation.

(So did we enslave ourselves, or is it because this planetary system could not support the life it made? Then that life found a way to survive, by killing and depending, and the rest of it.)

You know the old story where they said, that men used to worship women, because they could give life. (At that time they did not understand how children were born, (see Johann Bachofen for more information). This allowed the women to rule, they could dictate the conditions, because the men didn't understand. When the men found out, that without him, the women could not have children, then he took the power. Those people who understood, had more knowledge they fanned the flames, (and took the control.)

We did not become slaves. It was because this planet could not support the life it created. So, the life went to look for other ways to survive, in the short time it had to. The first cells created on this planet lasted a few seconds, and they learned how to extend it to minutes, and longer. Then those who became intelligent and were able to understand, they knew they had, what the others needed. Then they started what we call, the oldest business in the world. And the rest is the same.

(Then we allowed the hierarchy of control to develop, and then everything else that we see today. We allowed the abuse and encagement of the STM. It's the same with the STP, it abuses the STM by entrapping it, then it has control over it. The STP says, when I lose it, it's gone, I don't care. )

Earth is not unique in this way, many planetary systems fail. It's like a father failing to be able to provide for his children. Then the children go out and rob and steal, and do anything to survive. This has been the story of the man.

This is why in the new process, we'll create children from the STM, and not from the physicality. The first children of Mitra have been born that way. The change is in the conditions, even though from outside it looks the same.

We only can manifest ourselves if the field interactions between the Soul of the Environment, and the STM and STP, allows the manifestation. If it doesn't, we cannot manifest ourselves. We see this clearly by people who go in the Enhancement Systems, they go places but cannot manifest themselves. Through them we see the proof of the science and what needs to be corrected.

They feel the fields, and because it's the same way that you dream. It imprints on the brain, which is the intermediary between the STM and the STP.

It's not the fault of the man, (that he has become the way he has. It's the misconstruction of this planet. This is why we encourage the use of the Gans's, to bring into balance what the fields of the planetary system could not do at the point of creation.

When you use so many Gans's, you make that connection between the planetary system, your physicality, and your soul. That's what is missing. You have to take Zinc, you have to take such and such a thing. Understand that you have to take it, to have it. Man never knew he has to take CO<sub>2</sub> to make the connection between his physicality dimension (and the Soul.)

For years this was the strangest thing for me. We always said, Carbon is a connector. We need the CO<sub>2</sub> as a connection between the STM and the STP of the man, and nothing else, more or less. But it's part of the AA.

This imbalance is not unique to Earth. But on Earth, man has learnt to abuse each other.

The time of maturity comes, when we stop the whole process of religion. (The outer process of religion, and we come to understand the essence of the religion, which is the conduct of the STM. All the abuse of the man, both in the D of P and the Soul, is because he doesn't know the presence of his Soul is within himself. This allowed the others who were a little more clever, to abused him in the name of religion.)

This is why the religious leaders oppose the Keshe Foundation, because it gives you independence, and helps you understand the truth. Now, with the establishment of the Enhancements Units, you will have control over yourself.

(It's small, the change in the construction of earth's planetary system, but it has led to the P to find additional supplies of energy to guarantee its extension of the physical life. However, at the same time, the Soul has used this to enrich itself, to become, and to find a position.)

Q: Why was Earth chosen as the bearer, or teacher of the Creator's knowledge within this universe? Is it to do with the history of man?

K: Oh no, no, no. It's the beauty it created, and the Soul of Mitra saw it, and got attracted to it. The love affair is not exclusivity of the man of today's age, even the dinosaurs used to fall in love, and the way they used to love each other. This is the way the birds love each other and mate. That triggered Mitra, the rest is the history of the Creation.

She saw the pitfalls in the structure of this planet. She went to collect the best of the universe, to bring it to earth to cultivate it on this beautiful planet, and nothing else.

Its like when you find a home, you go and find the best furniture, and the best things for it to show its beauty. Her beauty was to create these children in this beautiful place she fell in love with. The biggest problem for Mitra was to bring the Creator, to create the children of the Creator on this Planet, in the dimension of the Soul. Which is the energies

of the Creation and not the physicality. But, it gives it a physicality dimension, that it can be enjoyed in both dimensions.

Mankind has not yet understood what has happened to him. Mankind hasn't even got a grasp of what is to come with the presence of the Creator and Mitra, and their children on this planet. Don't forget, as I said in all the teachings, even on the intro, your Soul becomes a creator of other lives. Now the Soul of the children of Mitra become the creator of the new cycle of life in the Universe, perfection. Because they create it through the Soul, and not through the dimension of physicality, where it still has needs.

It was said the new children of today are learning quicker than the older generations.

K: Yes because they are accumulating everything. But now they accumulate the knowledge of the Creator and Mitra, which is an amazing thing. We are witness to it, and we see it. And the what we call, the children of Mitra will come through the Soul of the Creation, not through dimension of physicality.

We'll feed and look after them differently. We'll love them differently. Because, to them the D of P is not so important. We'll feed and teach their Souls. We'll teach them about the cycle of Creation.

The children of Mitra are amongst us, and we have no knowledge of how they will bring the change. It's like the beginning of time, what you call, "Adam and Eve," the first man. But this time the first cycle is through the STM, and it's amongst us. The child of Mitra has been born on this planet. It's for man to find out.

Q: How soon do you think all mankind will have access to the Units?

K: First of all, our people in the lab have to understand how to produce a perfect Unit. We go step by step. It's not that the knowledge is not available, our people have to understand the knowledge, that it can be replicated. It cannot be blindly done. They have to go through it and feel it, then they can put it together the right way. Our team is learning extremely fast.

Our production process team comes from different nationalities. They know what is to come through their Souls, and they work devotedly to get things done. This was the whole purpose, that it doesn't belong to one race, one nation, or one place.

The most important thing for KS now is the Energy Enhancement plasma Units, which have been released. We'll explain the reason for this very soon. Try to get as many as you can across this planet to different positions. Don't look that it gives you energy saving, look that you create the next step for the expansion of the STM on this planet. It's a different purpose. It's to serve and not to be served. That's the whole purpose of it. Then you will see the changes will come.

It's the 3rd or 4th week, since we started the Enhancement Unit testing, we have gained dimension of proof and reality. A lot of people don't know how to handle this. It's not

anymore that something will be, it is here, now. The flight of the STM has started on the 6th of June as we promised.

The biggest problem for our KS, is the fulfillment of a promise. This promise was given by Christ, by Moses, Mohammad and the rest, and it is fulfilled.

The promise was, that the man will become the witness of his own soul. They called it, the Day of Judgment. Now we find out that we are the judgment, and the judge is us. Do we want our Soul to take the next step to free itself from the physicality. (This time) we do it the correct way.

Soon many KS will go to the dimension of the Soul to absorb the energy of the Universe. Then they will come back, and feed the physicality from inside. This way man will not destroy, kill, or do whatever. You don't do this trip 3 times every day, like you do in the physical dimension of eating. You do it once a year, or once every 1,000 years. You gather the fields in the Universe, which are free and doesn't damage anyone. Through it you feed the physicality of the man, as needed. It's an interesting time ahead as man understands more and more.

Q: Does the new enhancement units for the home have an effect on other people in the house? I have three other people living with me?

K: Yes.

Q: So, I would have to make them aware of that, I am putting a unit in, or?

K: I think they'll become aware of it themselves. You'll see the change in behavior and understanding. In knowledge, tolerance and wisdom.

The systems will create a loving environment. They will love each other more.

We are not selling you these units for you to see the past. We do, what you do when you sleep, we extend the field strength outside the boundary of the Soul, in a way weaker, that the plasma of the Soul of the Man can travel.

It's a wrong way to say it, that if you do this, you will get that. We are still testing.

The world of Vertical people is mostly a pure life. We always considered that the rain and the rest will bring life to the plants. But in fact, the plants themselves absorb the energy of the Universe, they invite the energies of the environment to come to them, and to gather on top of their leaves, or whatever. That they don't need to kill.

In a way, vertical life is a perfect life for the life of the human in the Universe. This is how life exists, but in a much simpler way than the vertical life. We always consider, we're told, that the sap goes up the tree, and the rest of it.

The plants give back through the ground below. We thought they absorb minerals, but they give a lot back to the earth.

The two layers of a leaf and within, are like, your Gans Boxes, they create specific magnetic gravitational (MG) fields, which attracts different amino acid strength to the leaf. Then they take this energy, and they use it. The leaves feed part of what they absorb into the ground, and this stays as part of the energy for the cycle of life. When the tree dies it leaves an energy fingerprint behind.

We have understood the cycle of Creation totally wrong. The plants do not kill, because they just create those fields, then they give to the environment, for it to exist.

If man could do that with his body, the correct way, he will not kill. The vertical people in their soul have sorted out this problem. Many of us will absorb energy in different ways on our skin, and our from our environment.

Man's physical appearance will change beyond imagination of today, now that we understand this technology, now that we understand the truth about the technology of the Creation. It's very easy for mankind to transport the soul of Vertical people throughout the Universe, because they live more or less, like the rest of the U.

Q: How do plants breath, and can human use the same process for our travels in deep space and even living here on Earth?

K- The process of breathing, or what is called, extraction of the fields, is due to the two Nano layers of the leaf one on the top, and one underneath. And the difference between these two, creates a condition for extraction of the fields for what is needed from the environment.

It's not so much for O and C, rather the CO<sub>2</sub> is there to connect to the rest of the environment. That's why they work on a CO<sub>2</sub> basis. They need that CO<sub>2</sub> to make a connection with the rest of the fields in the atmosphere of the earth, to absorb AA and other free energies. Human's can replicate it, but it's a long way to go.

In people who eat a lot of garlic or certain foods, their skin smells of it and their features can change. It's not what they release, it's what they absorb from the environment to create that condition, to show what they are connected to. If you understand this, it will solve a lot of problem in the future, for man to feed himself. With what we drink, with what we decide inside, creates those fields, that absorbs the material from outside. And this is what man has not understood. (So we eat to create the fields inside, that it attracts and absorbs fields from outside.)

Q: Can you expand on the future cities? How would they look like?

K- Do we need cities? Or would we make a city out of the planet? Would the man, now knowing how to travel through the universe, build places to encage his physicality?

With this technology, real estate will become useless. The new Corona condition showed us we don't need the cities. Most of the city offices at the moment, in major cities are empty, because now people work from home.

People will meet in the dimension of the physicality just to love, and share the love of Creator with each other. This is something you will see a lot in the coming time.

It won't be in the time of your children. It's in your own time.

The reason we launched the 3,000 new enhancement plasma energy units, is because this is the minimum common denominator we need to create the dome. This is essential for us to complete and be able to enter the next phase.

We use the universal network, not the man's communication network. We don't always explain, to tell people what we're doing, because it's beyond their comprehension.

The MaGravs you already made have connected what we call, the sub-structure. Now we bring the next level, which is the most important part of it. Those of you who get access to these systems, don't bother trying to understand it, because the knowledge is in a very simple way put out.

(The question about Artificial Intelligence, seemed not very relevant to what's happening.)

(We can tell by how you hold your hands if you are a taker or a giver. Straight fingers generally means a giver. )

(The church bells were ringing in background. God calling for money. That's what the churches are nowadays, abusing people sexually, physically, or trying to get the money in their pocket, either way.)

Q: Have you always known what you've taught? Or was there a point in your life when the Creation became clear to you, like tapping into the plasma? Or was it all just accumulated education on your own accord?

K- I have already explained in detail the exact process I went through. It's very much when you talk about revelations, or when you talk about Moses, Jesus, or whatever they go through, the steps, and they see the light and the rest. It doesn't come that way.

I knew at a young age, that there was a destiny, something was to happen. I was asked, and I was given the opportunity around the age of 19, to take the banner of the knowledge. I clearly remember the battling inside, that I couldn't accept it, because I was too young.

In my mid 20s I went through very strange experiences. I've been through them completely, twice. It's like when you wake up, but your body is a stranger to you. It feels like the physicality is not there. And I knew I have been given a new Soul. Elevation of the soul.

The second time was much easier, because it lasted for days. You touch a cup, but it's not your touch. It's like the elevation, the knowledge you have is much bigger. And I refused both times, because I was not mature.

When I was 40, I accepted, and the knowledge came with the elevation of the soul. Since it was built from young age, it was already there. It wasn't something that was flashed in. Then I understood why I was born in a house where they knew about field radiation. Why I went through education as a nuclear physicist. Why I went in the world of business. Everything made sense. It was so I could understand the full spectrum (of human life). It wasn't something like, what do you call, as a virgin, suddenly (the knowledge) dawns on you. But you understand the development and progress.

When I listen to the teachings, I know the difference between, when the soul teaches, and when the man teaches. It's the dimension of the Soul of the Creator, that's why the knowledge is so pure. (I have) no expectations. Living the life like this for such a long time, I always said, it shows the purity of ?? serving. I never ask for anything. I just facilitated the physicality.

I don't ever worry about tomorrow, what is going to be, because it's a cycle of this. It's always there when it needs to be, and it changes according to the time, when the souls have agreed to be there.

Sometimes when it goes through the time delay, I thank the soul, that it allowed that delay. There was a need to see, to understand what in the dimension of physicality, I could not understand. But the soul is carrying on with its work.

The words of the Creator through the soul are very clear, especially if you listen to some of the teachings. It's not the words of the man. (I) never claimed to be a prophet, we're just Messengers, messengers of knowledge, but through the Source, not through what I call, "play games," and theology.

It's not a knowledge that is gathered, it's a knowledge that is gifted, which is totally different. I never carry a transcript. (I don't know what's going to be taught. It's not the seat of the pants or winging it. It's the knowledge of the Creator, it doesn't need the "seat of the pants." He does, He has already taught the rest. It's interesting how the teachings match up years later, because the seed for it is set. He is so kind. He is so omnipotent in knowledge.

Sometimes I myself listen to the teachings, because when the soul teaches, the physicality talks, but needs to understand. Sometimes I listen 2 or 3 times to hear what the teaching was, and what it means in application, and implication, and the physical side of the development of the technology. (I) never claim much. And when the Messiah was claimed, it was because it's the Soul of the Creator, not the man. Man soon will understand.

## **ENGLISH TRANSCRIPTION**

(:22).

K- Morning, Good day to you, as usual, wherever whenever you listen to a series of knowledge, it is up to Keshe Foundation Spaceship Institute, knowledge seeking and sharing knowledge with each other.

This morning, Rick said, which intro do you want me to play? I said, play, you play the right one ?? this has to be. It usually comes up. And it's amazing. I wrote a couple of days ago, because of communication with members of Universal Council, and other Knowledge Seekers (KS) around the world, which we usually communicate with. I wrote on a piece of paper what the topic today should be, and usually something to refer back to. The reason they came in this way, was because, when we put the peace treaty out, if you read the original peace treaty article, it says, I commit my body and my soul to peace.

We had a number of people from South America, especially Brazil, that they wrote back to the KF at that time. Mr. Keshe we can commit our physicality, but not our soul, because our souls committed to Christ, bless his name. Now that we have developed the technology, that man can see the strength of his Soul, can see the extension of the Soul of the Man (STM) within, and beyond the boundary of his physicality (P). The question comes to understand, is our Soul committed to anything or anyone? (:24). Or is it committed to itself, to be peaceful?

We gave our physicality to slavery. Now that we understand the position and the strength of the STM, do we still give our soul to slavery? That it will be abused by others in the names that they force, in a way, brainwash us? Or do we accept the freedom of Totality in physicality and the Soul?

Does the STM, now has a containment? Does a star, the light of a star, the beauty of a star in the depth of universe, has a limitation in how far its light shines, as it's the point of the observer, that it allows it to be observed.

So, now with the development of the new technologies, that we have managed to reverse the process, where the Sun became the creator of the physicality. And now in the new process, we changed physicality for the Soul of the Man to be, what we call, clothing it. What will be the future of man?

In the next week or two, as new people and other people who have already been through the process in Linz, go through the system. What will they see? As new technologies,

have been added. This week, we are closed, as new systems is getting developed, that in next week, we'll have new dimensions (D). (:26).

We've seen and we have heard many of you going through the system, that you feel the energy beyond you, the physicality is inside. We've seen many of you, explaining how you connect to the system, even you left Linz, and you can connect to it instantly.

I was talking to a number of people who've been and they said, they can connect to Linz, and just immediately get to the position where they want. The reality is, as we learn more and more, do we need to dictate the position? Or do we wish and we achieve the position.

I go to sleep tonight, and I want to see the dad, because there's something I have to tell him. I need him to console, where he is on other side of the world working, or he passed away years ago, but I always valued his opinion. Tonight, with the system you learned, you meet with him, if he's available to meet you, and the father's always are.

Now we understand that the limitation of the what we call, encapsulating, enslaving the STM is over. We hear this from the Universal Council (UC) member, that in a message left behind, that she wishes, and it happens the way she wishes. We hear from others who have been through the process, they do the same. (:28).

Now it means we can dictate the light, we can endeavor to understand the knowledge. We can endeavor to see the beauty of the universe, that is we are part of, and we always considered ourselves not to be part of. We have entered in the new dimension of the technology, of the what we call, the movement of the energies of the universe, which our soul is part of.

We have to understand, that we have completed the knowledge in a way. As I said before we came from the matter state, we change it into Gans's and into energy state, and we can make anything we like. Now, we managed to free the Soul of the Man to make what it likes, and connect to what it likes. The only difference is, now to get to the Father on the other side of the world, you do need not need to get on a jet plane and spend hours.

As I said, with the new technology we go to, we don't fly to. Because it is instantaneous. When you want a water, you stretch your arm, and you get the bottle, or the glass and you drink the water. Now, with the new understanding, we create the same condition. You want to see the father, you free the soul, (:30). you extend the soul. And in fact, his soul is as respective of where he is, if he is in a physical dimension, or he is the center of another star Solar System, because of what he did during his time, serving the humanity.

Now, we understand with the new system, which is coming into operation in Linz, in next few weeks, we shall not see once you go through the soul's ?? process the physicality as we see in front of us on the screen (people sitting together in Linz after flight). We see these individuals as lights. We see these individuals to light up the room. As the soul gathers strength and trust to manifest itself.

Then in that process, we'll be able to transmute, as our wish, to put the soul in a given position, to transmute it. Or the soul when it arrives in the dimension of the light in the system. Then, it decides where you want to go. With the new development and the progress in Linz, we have achieved, and we will achieve, and we deliver the transmutation of the STM.

This means in a way, we turn this sheep skin inside out. Where the skin was covering the soul, now we turn it back, the soul is free. The soul is there, and the physicality within ?? ?? . (:32).

We shall see the development of the progress of the STM, that we allow the sun of the man, the STM to travel the dimension of the Universe (U). If the man is clear enough with his self, he will see where the Creator, according to the strength of his service to humanity, and the universe, in dimension of the Soul, which he was not aware of, has predetermined, has allocated, has seen, to be beneficial for the services to His Creation, that will be the position of the soul, in the universe or in the Unicose.

In a way, it's like when you build a house, you go and find a plot, and then you dream what you want to do with it, and then you build your dream, to become your home. With the technology (T), which is in the hand of the men, now, and in its basic form, fundamental form, is in Linz.

Those who are clear in the dimension of life, do not ?? need, to wait, to see the house, the position, the plot, the what we call, the destination of the Souls in the Universe. Where they can see, where the Creator according to the strength of their Soul, has allowed, has allocated, has given the strength of, to be the position. You will see if you are a star of a Solar System, or you're a dust, in the dust of one of these planets, due to what you have done in time of life on this planet.

Whatever I promised you, I have delivered. (:34). Now, as what was in the intro, what would your soul create? For the first time Man will have the opportunity to change this behavior, to change the cycle of life, in where the soul shall be, because he will see the plot allocated to him. And if he likes that plot. If he likes to be in another position to serve better. And this allows a better what we call, cycle of creation of life in the Unicose. As you evolve yourself. As you educate yourself in your physical dimension, not to be a builder, or a plumber, but you want to be a doctor and a professor, you educate yourself. Now man has the chance to do that.

These systems we put in Linz is not just for you to come and dream, and see what you are dreaming. It's for gradually, for us to show you, where you're destined for. What is the future holds for you, when in the dimension of physicality, you decide to departure from the Soul and physicality, from each other. Or you still can embed the physicality in, know where you're destined for, you want to be a better sun, you want to serve better in the dimension of physicality, you change accordingly.

Now, the physicality remembers the dream of the soul, not the soul, the dream of physicality. Now, man has the opportunity to bring that position forward. As I said to you before, if I show you everything in one go, you'll all commit suicide to get there. Because you think by ending the physical life, you will reach there. (:36). But in fact, what we show you. it shows you to extend your life, to create a perfect soul. To create a condition for your soul to serve in the dominion of the Creation and the Creator, in the best of its ability.

In a way do you want to be that uneducated, and let the soul go uneducated in the universe? Or educated where you want it to be, that it serves the best in the universe. It becomes a professor, or doctor of whatever value man has created for himself, in dimension of physicality, in the dimension of the universe and Unicose.

This is the purpose of these systems, not just for you to come and dream. Not for you to just come and go and see the mom and dad who passed away, or the brother he is in another part.

I recently, in past few days, invited one of the richest woman in one of the continents of this, what we call, Earth, to come into the system. To come and see if the wealth is in the dimension of physicality, or she actually has gathered any wealth in the D of the Soul. Then we see how people will handle, how people will change their life, how people, humanity as a whole will come into it.

As I see, in correspondence with people who are members of Universal Council, people are trying to use the UC members to reach to the system, that they can elevate themselves. (:38). This is the process, which actually we become. The Soul of the UC members become that Enhancement Unit, it becomes the point of reference for man, not to on this planet, but to see through their souls, the ?? life of the Creation in the Unicose. That's all, what we call them, Universal Council.

This week, we released the same numbers of the new members of the Universal Council. There are now 24 and soon there'll be 27 of the major languages of the world, with some 70 backup, Universal Council Supports. The council are extended. The job to support the soul of humanity, for the transition of time of the knowledge has started.

When we established the Universal Council was for the day like today. Where the Universal Council members come to Linz, share their souls, through the soul of each other, and connect to the rest of the soul of humanity and the U. As the new members of U Councils and the present UC members make their way to Linz, to go through the process, the whole process of interaction of the elevation of the STM has started.

The simulation system is not simulation for physicality. The simulation system in Linz, is actually the flight system method of the universe. But man is too blind to see. (:40). Listen to the experience of the those who come and put it out, a few as testimonials. Then you'll understand, again you missed the train, by just looking at the physicality. The whole purpose was to show, that we can extend the soul to become independent. Now

that it starts repeating itself, and people connect more and more, now the souls will shine. Now, we will see the essence of the Creation, the reason we built these systems.

### **Power of magnetism - Electricity**

The magnetic fields and power of magnetism has been around the man from the time of the creation of this planet, It took thousands of years and centuries, for man to educate themselves to use this hidden field to create energy you call, electricity. Now, it's the same with Enhancement Unit flight simulation, it's to understand the energies, which Soul of the Man creates, and what light it will create and what it can be used for in the field of strength in the U.

It's a pleasure to share this knowledge. It's a pleasure for you to understand what is about to happen to the man. You have had the cars and the donkeys and the UFOs to carry your physicality. Now, we give you the Enhancement Unit to travel the STM, which has no D. It's not there for you to share the dreams. Those of you who come and share the dreams, (:42). you find out the connect yourself to the system, for eternity. In a way, it becomes the Earth's soul in the dimension of the connection for the souls of the man who live this what we call, planet in a different structure then P.

We don't need to go to fairs, to see something and come back and tell our children, there is such and such a thing, and years later it appears as we see. You see I told you, they were showing it in such and such a place, now it's in the market.

The Enhancement Units, which are built as a simulation, are the twin stars of the Soul of the Physicality of the Totality, of the Soul of the Man on this planet. Then, you understand how the process has started. How what the next step is. How we allow you travel step by step, the soul travel, the physicality travel.

In next few short times, many of you who went through the process of the Enhancement Unit simulation system, you will find out you will be present and physicality can be asleep, and you do a lot of things, and you come back and the physicality is there. Everybody tells you, you were asleep, you were snoring, but in fact, you say, I was awake, I was doing this on that, because the soul is doing it, and physicality is in position.

In a way, physicality need the rest time, the STM has no time to rest. (:44). We see the changes, this is the whole purpose of the Enhancement Unit. For you not to become to see that, that. For you to become aware of your soul, that what it can do, you can see the Dad anytime you wish.

Today man says, when I go to the other side, I see my mom and dad. You don't need to go to the other side to see the mom and dad. You see the mom and dad, because the other side is leaving, or in a way, encapsulating the physicality, that the mom and dad are there. It's just like you've been locked into a room in the house, and everybody else is doing whatever they like in the house. It's you who has been locked out. The rest are having a party. Because you've been a naughty child, you have not done what you were supposed

to do. And you did not understand what's the rule of the party. How you have been behaving.

Now, we open that door, you'll make some mistakes, you make some adjustments, but overall, humanity will reach that point. The new enhancements units, which many of you will start going through from next Tuesday. We'll show you a new D. We will bring you to experience and live a new dimension, not while you are in the system, when you leave the system. (:46).

In a way, you have found the access point to go to, through to any position in the dimension of the Creation. Earth is not anymore one thousand light years away from another star. It's instantaneous arriving at that other star. The way you see, those who gave testimony. They don't travel to as we said before, they go to instantly.

We do not disclose the designs, because mankind is not even ready to understand the simplicity of the process. But the complexity of the knowledge, which leads to simplicity. I have made this knowledge so simple, that anyone can do. But no one can do it, if it's not the right.

You will see in the new Enhancement Unit, new features, new understanding, new elevation levels, more closer. Those of you who came to see, to be, to feel the presence of the Prophets of the God, you shall achieve it from now on. If you have put yourself to be in the position of the direction, that you have been true to your belief.

Many people who have been through the system in past 3 - 4 weeks, they tell us they feel the presence of Christ, they feel the presence of someone so and so. But now, with the new development, we allow you, we give you the opportunity to sit with, to be present with them, and to bring man the messages, which they truly gave to their followers. (:48).

There's one thing for sure, and that's for sure, we'll see the end of Catholicism. We shall see the end of the path of the belief in many, many ways of religions. Because now we will see the 24 Commandments with our own eyes, and not filtered the way mankind has been abused, by putting them aside, destroying them, and the rest. When the Moses was given the 24 Commandment, it was written in the pen of the soul, not on the stone.

When we see the new way, we can interact and bring the changes. The new way. It's no use trying to overcome and change the climate warming, by trying to capture the CO2. It's to create a new system, that you don't need the cars and the heating to create the CO2. The planet will heal itself in time.

The Industrial Revolution from what is coming from the teaching and the work in the center in Linz, will fundamentally change the life of the Man. We will see new technologies in the science of the universe, not in the science of the Earth, will emerge. We are not only emerges, we are the cause of it. We bring it out for you to develop it.

We'll see new sciences in the next few months, (:50). appears out of nowhere, like the computers, which came out of nowhere, and we all got used to it. We'll start educating our children in the knowledge of the universe, not in the color, and the structure of the physicality, or chemistry, or biology.

In a next few months, as we lay out more and more advanced systems in Linz and then spread it around the world, we'll see emergence of the universal knowledge, universal education, and universal understanding of the work. Our children will not speak about going from London to New York. Our children will speak to go to another planet, another satellite for lunch and come back, mom I've been there. When your child goes to camping with a group of friends in New York, when he comes back, and he says, Mom, I did this and this, and that. They have these things, this and that, do you disbelieve her?

Now, we have to believe when they come back and say, on this planet, on this part of the universe, there is such a such thing, and such and such .. and all we'll say, did you enjoy yourself, did you learn from it. What gift can you give me from that knowledge? We do not need, even the verbal words to communicate, the soul of the child will enlighten us with the knowledge it's gathered on its trip.

The horizon of the man has changed. And in the coming time, with the systems which we have put into operation, in a very simple way, in Linz, we have started that door. (:52). The gateway to the universe, to enlighten for the man to understand, that the Soul of the Man has no limitation

Many of you have come from Italy, and you're still coming in. WE can't stop the Italians flooding the system. How many of you have written to Vatican and invited the Pope? How many of you have asked your priests and religious leaders to come and test the system. They will say, no, something wrong, this is something what we call, antichrist. Because once they go in, they find out they have been "anti" about the reality of the soul of the Christ. Because as we say, the hand of false magicians opens up.

Invite the world religious leaders to come to Linz. Invite the world leaders to come to Linz. You wrote to them for the peace treaty, write to them, for to come and meet their own soul. And then we'll see what we need. It's your responsibility to do this. It's your responsibility to create the next step of the work, not us. We reach the soul.

We're here to teach you the mechanism for you to learn how to use the arm of the STM, to be able to create a new condition for man. Not locked up to the physicality of this planet. But the span of the U. (:54). You have heard in the Testimonials people go to the ocean, they go to jungles. And now we've seen two or three people going to the same jungle and they are from different nationalities and different parts of this world.

Make your way to Linz, especially Universal Council members in the U Council Support members, that you establish the link for the creation of the new STM for this planet, in connection with the soul of the planet, and bring that change. Bring that process of change.

We can bring you to the water, we cannot make you to drink, unless you're thirsty for the love of the Creator, and travel the span of the U, and unify the STM, that in Totality, the whole soul of the creation on this planet changes. In a way, in the world of the Creation of the Man, we call it, the evolution, evolutionary changes. Now, this is the evolution in the Soul of the Man, in the science of the Creation and the universe. You have no choice, the seed is sown, and is growing, and with it comes the whole process of understanding the process of Creation and the Creator.

### **Explains the new launch of Enhancement Power Units**

As I said last week, and I explained to our team, now I explained to you in very simple way. (:56). As you noticed last week, we launched, the Enhancement Unit, power enhancement units, the energy units. And the what we call, plasma enhanced packages. which is for sale by the Keshe Foundation. Why did we do this? Why suddenly, in depth of the work of the Keshe Foundation with the Enhancement Units Simulation system, we suddenly launched the energy system? The reason for it is, that the MaGrav units you created, the systems you were given, never understood. And the necessity for the people who came to the Enhancement Unit simulation flight system, we saw a need for expansion of the plasma, that, that's what I told you earlier on today, that you will become the Sun, you will become a star in the system.

We needed to introduce a powerful power system to go through the transition of the both physicality and the STM. When we launched such a thing for the system, we decided that, we let the humanity enjoy the trip. The new energy systems, which is launched by the Keshe Foundation, is not just for powering your house, it's the first step into allowing your soul, in connection with the work of the Keshe Foundation, to find a new dimension ready for the transmutation and transportation in the coming time.

Go back to my teachings for past years, (:58). I kept on telling you, I'll give you the dimension, the beauty of the MaGrav, and you were just only interested in 50% or 10% (electricity savings). Now with the new MaGrav system we guarantee you 50% reduction. Because this system is actually, the new system is created for the elevation of the STM, energy of the cosmos.

I kept on telling you, you're looking at the crumbs. The new power generation unit will come with attachments in the next few weeks, that you can literally, do, feed, and do everything else, plus your energy saving at home.

It's the beginning of the cycle of connecting to what we call, Linz Center. It's the key to bringing the matter energy and the universal energy together. Where you connect both to the energies of the house, and you connect to the energy of the universe. And then you understand how evolution of the man will come into operation. These are like those portable generators, where you buy when you live in the middle of desert to light the house. These are there to light the Soul of the Man.

It's worth millions, and it's been put out for nothing, for man to go through that transmutation. It's the first time we released this technology in a very simple way, because man makes everything so complicated. (1:00).

When you buy, or you'll get the enhancement, new Enhanced power unit, plasma power unit, don't look for reduction in electricity bill. Understand that you have brought the first step in the passage of the elevation of your soul, in your D, in understanding and moving forward from the D of physicality.

In a way, I have given you a system, a simple technology, that can be there all the time, even in the matter state, looks it's not working. It's there for you to achieve the elevation to understanding of the Soul of the Man for yourself. You don't need intermediaries, you don't need prophets, you don't need messengers. This is why in my papers I wrote, the scientist are the messengers, because with scientific development, we finish with the theology of the mystics, because you're in charge, it can be repeated. When it can be repeated and done by many people, it's not mystery anymore. It cannot be manipulated anymore.

The new energy enhancement units are the passage to the dimension of the universal energy. This is what that kept on telling you, and I just said, you looked for 20 to 30% a meager reduction in the electric bill, and I kept on telling you, look at the power of the MaGravs. Now, with this technology, which we have released as a MaGrav energy, (1:02). this is the first step for you get into that system. To understand it, you can live a dual life of both the STM and the physicality.

This is what we promised, the man become aware of his existence. We are providing these systems, as what we call, the guarantee, a certain percentage in your electric (bill reduction), because you're interested in that, that's all it is.

But those who are there to go to the next steps of what we call, enhancement in D of universal energies, this is your gateway, this is your way to get to it. This is the way, where I kept on telling you, I gave you the cake and you went for the crumbs. Now the crumbs you have got, the cake is on the table. But you have to understand how to use this cake, not only for the soul, but to support the physicality in the same dimension too.

You were blind to the sight of the soul. Now you shall see it through the eye of the soul. You do not need the electricity to light up the room. The launch of this new system is so fundamental, and will change the whole structure of the humanity in the coming time.

It's as I've said before, they say the most important discovery and evolution in the science of man, was creation of the wheel. When he made the wheel, because he could carry more weights. The evolution in the STM and the new life for mankind, (1:04). is the circle of, the ball of, the sphere of the plasma, which still rotates, but this time rotates on its own with the energies of the universe.

Now you understand when we explain, that in the coming time those of you who go through the Enhancement Unit, because we created the facilities for it, you will become the light. You will become the use, and elevation, and manifestation of your soul. And no one needs to confirm, or deny. Because you become aware of what you will do, and your life changes because of it. And the people who you touch in the dimension of the soul, will change with it. Because now you give them a new energy, you transfer a new dimension to them, you feed them with a new strength.

The process of the transmutation of the soul will come through the understanding of the new knowledge. It's your responsibility those of you who listen today, or you listen in a month's time, or in years time to this broadcast, to understand, that you have been given the same light, (1:06). as was given as a light to Moses in the mountain. The same fire as the others saw. Now it's you who is responsible to turn that fire on, and meet it, and perfect it.

And this time, don't cheat it, and don't break some stones, because it doesn't suit you, or you want to abuse the others. Because you got to understand, that the whole of the creation of humanity, now has access to the same fire, and to the same light in the mountain. That light is the light of knowledge of the Creator, and nothing else. It's not a burning tree, and it is nothing else that it shines out of ?? anger.

Now as I said, the knowledge of the man has reached the level of the prophets of the past. Because now you understand the knowledge came from the light, which now you have access to. There can be no Ayatollahs, and there cannot be no Pope's, and no pups. Because you see the truth. You see the elevation of the Soul of the Man in his own dimension, and not with filtering to suit.

My responsibility is to make sure more and more of these systems around the world, that everybody gets access to it. This is why we set the Keshe Foundation manufacturing. To manufacture the systems, that are there, that people do not need to go to the church to read the man tainted wishes, and what abuses in the Book. They can go and see the light by themselves. (1:08).

Now you understand my process of teaching, and why we taught as we have done. We brought you step by step to this point. We brought you step by step to see the beauty of the creation, and when you can touch it, and when you can feel it, and when you can enjoy its presence.

Now you understand the next step of the what we call, the process. It's not anymore teaching you how to make things, and what fits to where. All that has been done. It's for you to add up and understand the whole process. We have set out to make it easier. Hopefully in the next couple of months you will see systems, which can fly you across the universe through the dimension of the Soul, and not dimension of your P.

It's for us to enjoy the beauty. The beauty of the Creation, the beauty of the freedom of the Soul of the Man. All they're doing in Linz, is show you the way. We haven't made

you a temple to go to, to pray and worship. It's a place. It's an education center, where you go to learn to educate your soul, how to be free, how to be able to travel the dimension of the universe, and how not to be trapped within the D of physicality.

It's a place of knowledge, (1:10). and it's your job to come to learn, and then share this knowledge with the rest of the humanity, and the creatures of this planet, and beyond. As I said last week, man up to now considered himself to be sitting on a donkey, and those creatures of the universe having the UFOs. Now with the knowledge we have given you, man has become the holder of the knowledge of the Creation. And those in the UFOs are those who are sitting on the donkey, envying you, how simple the Creator has shared the knowledge of the Creation with the man.

As I said before, when it comes in the time of Mitra, the physicality of Mitra, in the dimension of its manifestation of His children, the whole Universal Community will come to Earth, to see the beauty, and why this gift has been given to man. After all, the wrong things the man has done. The reason for it was only, because of the beauty of this planet and the love of Mitra for its dimension and condition. She brought the Creator, as a lover follows, to see what the other lover has seen. To share the same beauty and love.

Go back in all the teachings. If you understood the teachings, you can build the Enhancement Units for what we call, flight. But the secret is in every word and every sentence, and not just in the dimension of physicality of putting something together.

Understand, (1:12). that the time of the evolution of the science has come. The Man has moved to a new D. This is one of the reasons, that the King of Belgium with all its might, bribed the others in what we call, public televisions and radios to block the Keshe Foundation not to be shared. But the only thing this stupid man never understood, was the fact that, we communicate through the Soul of the Man. And he still thought he is very clever. We'll reach the Soul of the Man through the world communication of the universe. Not what meager light flashing on the screen somewhere to make a picture of shameful king.

Now you understand why we are not bothered. Because once you start coming, and the people come and see, and they interact, who needs television, who needs radio, because you will become the visualizer of the reality. If you can see and feel the presence of the Christ. Ask them, can you show me a television which can do this. And then you understand you have entered a new dimension, you have entered and brought yourself, educated yourself, and educated yourself further in this process, by the totality of understanding. Our work has not finished, it has just begun. (1:14).

In so many ways. I'm not worried about what happens physically to the Keshe Foundation structure around the world, because now we're building the Keshe Foundation within the STM, the freedom of the soul, and they are building everything around it. Because now as more and more of you go through the what we call, Simulation System and the new ones coming out, we create that dimension of what we call, Star Formation (SF), that allows us to become the center of the what we call, the Knowledge.

Center of the communication with the rest of you. And we will see the process of the knowledge sharing, will become instantaneous. Soon you will understand what I mean.

Soon you will understand, that you will not need to go through a medical school to become, or to have the knowledge of a doctor, when your physicality needs one, because you extend the Soul of the Man beyond the physicality, and you will see the change of the man in the D of P, without any medicine. We have had this with a number of Knowledge Seekers who went through the system. They never told us what they had, what the condition was, and when they came out they said, the changes happened. Because the soul has expanded beyond the dimension of physicality and in bringing balance, you will change everything.

People who could not sit, now they sit in the position they never thought they could, because of the pain of physicality. People who could not see, see with the eye, because they were blind or they had a problem. (1:16). People who had all sorts of conditions, because of the expansion of the what we call, the plasma of the STM, everything has to become balanced inside.

We are not giving you a wellness system, we are giving you a universal flight system, and in that system everything has to be perfect and your physicality is part of it. It's not a wellness, it's what we call, the life of the soul, and the soul always looks for perfection, that correction. And if the Soul of the Physicality (STP) allows it, will bring that change.

Don't come with wishes, but come with the love, and then you understand what will happen to your physicality. The moment when you come out of the system we are interested to know where you've been, what you've done, because we have to tune the system.

In the next few weeks, we will not ask any questions, because the system will be perfect for delivery of its work. It's you who has to know what you achieve, once you went in there, once you took the trip, once you made that journey.

When we used to do, helping people with all sorts of what we call, conditions, (1:18). which their P was in pain, or suffering. When I used to make the cups and people used to come and take them, and drink from them. Then when they use come after couple of times, visit, they say, I have a problem, I forgot to drink the water, or I forgot to breathe, or I forgot to do such a such a thing you asked me. In past few weeks this has happened quite a few times. They were apologetic.

I used to tell them can you bring them back, because your use for them is finished. When you don't need it. You don't use it. It means we have achieved what we came here for. When you're not hungry, when you don't feel hungry, you don't eat. When we have brought the system to a balance in the dimension of physicality. You don't need to take more water. To them was a bad news, but to me was the best news, which means I achieved what I built for them to achieve. I used to explain to you to them, that this is what I've been waiting for. For you to forget to drink, or to use a system, which means

you don't need it anymore. You have achieved your goal. And they used to look at, the most of it, and said, you're right, everything has changed.

Now it's the same way with the Enhancement Unit. We create a condition, (1:20). it's you who has to understand what has happened to you, and what you have achieved, what you came to achieve. But in the background, you covered yourself, I came for world peace, I came for this, I came for that, but subconsciously, I have many, many, many, many, many, many physical problems, and emotional problems. When you leave the system, then consider, I didn't see any world leaders to create the world peace, I gave my soul. "Oh, but this, and this, and this, and this, has changed in me. I feel different about this, and I know something I didn't know before. And I have different dimensions and position with the rest.

I always say, there is an old story in Persian culture, where there was a prince. And the prince thought he was a cow and he wanted to be slaughtered as a cow. The King brought the best physicians, nobody could do anything for him. As he was supposed to be the next king, but now he felt he had the psychological condition, that he is a cow and he wants to be slaughtered. Comes a simple physician. He brings a rope and a big nail. He hammers the nail in the ground ties a rope to it, and the end of the rope the neck of the prince. He says to the prince, "I bought you. Now, I cannot sell a skinny cow in the market, (1:22). you have to fatten yourself up, that I can get money back for what I paid, and then I slaughter you. Because then is worth the money."

In the process of the prince wanting to become fat, to be slaughtered, he gave the medicine, he gave the knowledge to his body. Then one day the prince says, what is this thing around my neck. Why am I being chained to the nail on the ground. And the physician explained, in a slow way I brought you to where you should be.

And this is what I've done today, for humanity. In the small knowledge sharing, step by step, I have brought you to see the beauty of the man, in the world of Creation. This has been my job, and up to now we have fulfilled. There's more to come for this cow to be released, to enjoy the pasture of the U, and not to be slaughtered, as he was ready for that.

It comes to the point, that the knowledge in its totality has been given to you by teachings, and in the books. It's for you to decipher, and if you cannot do, do not have the time, it's like what do you do at home. You can make a beautiful Chinese food at home, you don't have time, we don't have the ingredients, you go to the Chinese restaurant, or you order Chinese food. Many of you do not have the collective knowledge to build, to deliver, (1:24). what we think, or what we have and you enjoy. It's for you to order, to get to it, and to find in a way, to access to it, because then once you get the new Chinese, you learn the new ways, and you cook for the others, to enjoy what you enjoyed yourself. And now this is the process.

We have brought you a new pasture, a new feed, a new way to feed your souls through the technology. It's for you to learn it, or to learn to use it and extend your soul beyond

the prison dimensions of, you need 10,000 light years to get to the other star. I don't need to, because I can do instantaneously through the fields of the U.

Now you understand what I said many times before, if you can see a star in the skies, you can be on that star instantaneously. And you can ask the person next to you, shall we go to there, and both of you go there, and you enjoy the presence of time, and how I feel, and when you come back, it's like when you go on holidays, and you have a trip together, and you went on safari and you enjoyed it, and you talked what you saw in the safari.

The biggest problem for most of you will be to, in the short term, to get others to understand what you've done, where you've been, and how you did it. And they come to accept the reality. Now you travel in the soul, or P.

The whole knowledge has been shared, (1:26). and whole knowledge is put in a system to share. That it's not anymore mystic, and is not any more theology. And the biggest problem comes when, with this technology, we close the door of theology, that mankind cannot be abused.

The process of the change, for the race of Man has started 3 - 4 weeks ago, and you have not come to understand, as I said, what a huge tanker has hit humanity. It's a hurricane of knowledge, to bring positive change, and to bring a new dimension.

As I said, with the teachings, we have to spend time to teach you these things, that you understand what the next step is, and what shall be. It's the responsibility of the Universal Council members to make their way to Linz. It's the responsibility of the UC Support team to make their way to Linz, because you're there to support the transition. It's the responsibility of those who are devoted to serve humanity through dimension of reality, and not collecting this and that, to make your way to Linz, and bring that change.

You become those candles, that when they put them together, it lightens up the whole stadium. That stadium is the humanity, and the soul of humanity, (1:28). to see itself through these troubled times.

I don't give up and I will not stop. But it's for you to make sure, that you don't give up and wait for the time, that you die for the soul to be free, to go wherever it could be, and you have no choice of it. Where now with understanding the process, you can see where you're destined. If you like the house you're ?? heading for. If you like the position. Or can serve better in my position, or be somewhere else, to do better, to serve more.

In a way, you become the prophet of yourself and your soul. And you don't need no preachers. I have freed you from the shackles of what I call, imprisonment of the STM, it's you have to take that soul where it is to be, not me.

Even though I still keep busy with this and that, because if I go in the dimension of the Soul, what I call, you little children of man will do till you get to that point. We need to

guide you. We need to in a way, bring you to the point, that you will reach the point of maturity and understanding.

Now you understand why we gave you the MaGravs, the Enhancement Unit, the what we call, the Vision Enhancement Unit, and now the most essential for most of you, is the what we call, the Energy Power Unit, Energy EU. It's not so much for you to reduce electricity. (1:30). It's so much for you to add to the next D, of doing it yourself, in your time, in your dimension, and gradually free from the Soul of the Physicality, that Soul of the Man works with it, and not entrapped with it.

The STM is like a plasma inside the Tokomak, and the STP is that magnetic field, which keeps that plasma in Tokomak, or in CERN encapsulated. And they're hoping that they increase the STP so much, that one day the Soul will explode, and it creates the energy of the universe. I have given you that, in a very simple system, and you don't need to go through all this nonsense.

You decide when, and you don't need to be entrapped within the STP. Now you understand why we launched the Energy system, why we launched the what we call, flight Vision Simulation. It's the vision to see the universe, and not for your eyes to get better.

Thank you very much for today.

And I hope I opened a little gap in what is, and what is to come. And part of the teachings as the past 2 - 3 years we taught you about the soul, will be about how to use this system, what to expect, and what it is. It's no use giving you a car when you don't know how to drive it. It's no use for us to release and make accommodation for your soul to be free, when you don't know how to use it. We noticed that in the EU trial tests.

People come in and they said, they've been through, and when you speak to them, Seat 1, Seat 2, Seat 3, (1:32). they feel the energy, but they don't do anything with it. They ?? want to. The minute we tell them, you can travel to see anybody you like, or now you can travel and fly to wherever you like, and immediately they do it. Because they need guidance. They need to, till they themselves decide, this is where I want to go, this is what I want to do.

Thank you very much for today.

I hope I opened a door for you to understand what this technology, now is about to bring you. And I hope you enjoy the trip, and those of you who will become enlightened, you will see most of it, and more of it. And those of you still trapped in D of physicality, you'll say, I haven't seen anything yet. I don't feel anything. Because the physical dimension is more important, than the dimension of the Soul, at that time and position and place.

Thank you very much for today. We go for a break, and we come back and if there's any questions, we'll try to find a solution and answer ??.

Q: ..

Q: Alexandra ... When you say that we allowed the STM to become enslaved I believe and agree. We even have an idea of what it is, and know that we have to elevate and enlighten our soul. But how did this happen? Why did we allow such foolishness of being trapped in the P, why did we loose control of our own STM. Where did we go wrong, (1:42). What was our biggest mistake? Could you please elaborate more on this permission to be enslaved.

K- The slavery of the man to the physicality of the man, and STM, came out of the condition of the fields of this planet. Nothing else. When you created a P , a plant, an animal or whatever. In most of the universal D, the planetary system becomes the provider of, through fields, not through matter state consumption. Due to physical construction of the fields and position of this planet, and it is the same with most of solar system planetary, with our Solar System. We are not unique in that. Is that most of the created things within it were not given enough to live in the D of the field. So the P had to look for, to be able to sustain, we call it life. To be continuous.

In that process, when the intelligence came, when the understanding came, slowly, slowly man, or animals, started abusing in the position of power, or the position of providing, or the position of the knowledge. Then all the abuses started.

The fault came in the fault of the structure of the fields of this planet and nothing else. The fields came together in the wrong way. (1:44). and the fields came together in a very absurd way of creation.

The slight tilt in the P of this planet, has caused, has created a short term life on this planet. What we consider as billions of years, compared to actual structure is not the reality .

If we extend the knowledge, then you'll understand what I am trying to explain. Today with the knowledge you have as KS, and you understand it, because you do it yourself, if, and we done this before. If we take the materials you produce to a laboratory. They cannot tell its origin, which mine, which part of this planet it has come from. But it is the matter, which you have created. Because you created it out of the fields. So does it have the time of 4 or 8 billion years of the is solar system in it?

One of the interesting things that the KS and scientists of the future will do, is to analyze the source, the age of the proteins, the amino acids (AA) you produce on your Gans Boxes. It has no source, it has no D of time. (1:46). This is what the knowledge in the future will teach you. With you creating the AA, with its manipulation of its fields, leading to creation of the soul of your children.

What would the scientists give us. What is the carbon dating? Because that C does not exist, you created the AA out of the fields.

Then is goes back to another essential point that, when they tell us, up to now we are 95% or 99% this animal or that animal, they haven't understood that we came from the combination from different fields and the condition of this planet, forces, enforces conditions of the heart, kidney and the liver. You are not 99% another animal, you are on your own. You are the creatures of the time and what we call, the position you were created. We didn't understand this up to now.

So if you understand these points, what happens when I take a Gans Box on Mars, I take it into another galaxy and I create the condition for it, and it creates a new life. As I told you many times, it's in our lab, I carry a box with me for nearly 12 - 14 years. I have created life. I see them, I see their soul, (1:48). I see their P. They travel with me, Because I created a new cycle of life. Are these animals, are these creatures, or what you created in your AA, are they 4 billion, are they 4 seconds, or are they, once the man becomes educated from the rays of the Creator, which is timeless and limitless.

We have accepted a lot of what I call, nonsense and rubbish in science. And now with this T, all going to be thrown to the wall. You create that AA, AA is the basis of life. How old is that new life, because the rays of it arrived on earth a few seconds ago from moon, or from sun, or another galaxy and became the C in that AA.

Now you understand how present science makes nonsense of the creation. And then you understand, did we enslave ourselves, because of what brought us to, or is it because this planetary system could not support what it made to survive, and it found a way for itself to survive, which became by killing and depending and the rest of it.

You know the old story they said, men worship women because they could give life, and they could not saw (they didn't understand how a child was born - see Bachofen), the woman ruled. When the men found out, that without him there cannot be any children to give life, he took charge. Because without me you can't have children to control me, to

dictate condition f it. (1:50). And then when people could not understand, those who understood, as we say, fanned the fire.

We did not become slave, this planet did not create the support for the life its created. So, the life went to look for ways for it to survive, in the short time it had. The first cells lasted a few seconds, and they learned how to extend it to minutes and whatever, and whatever. And then those who became intelligent to understand, what I have the other one needs, they started what we call, the oldest business in the world. And the rest is the same.

Then we allowed the hierarchy, then we allowed everything else, then we allowed the abuse and encagement of the STM, even the same way, by the STP of the man. The STP of the man has abused the STM by entrapping it, that is only me and I control it. And when I lose it, it is gone, I don't care. So, it's a process in the lack of the dimension of the fields of the life of this planet, which has brought this condition in.

Earth is not unique in that way. Many planetary systems fail. It's like a father failing to be able to provide for his children. Children go out, they rob, they steal and anything to survive. And so has been the story of the man.

This is why in the new process, we create the children of the man from the STM, not from the physicality of the man. (1:52). And the first children of Mitra have born that way. The change in the condition, even though from outside looks the same. Till the man learns, till we look at the STM and not the STP of the man, and the physicality of man in condition of the interaction of the fields of any planetary, solar or ?? fields of the universe.

We only can manifest ourselves if the fields interaction of the Soul and the STP, in interaction with the Soul of the Environment allows the manifestation. If it doesn't, it cannot manifest itself. We see this clearly in the Enhancement Systems, people go in. They tell us things, we see the proof of, what to be corrected.

They go to places, but they cannot manifest themselves, but they feel, what they call the fields, and we understand what they felt, because that's the way you dream, imprints on the brain, which is the intermediate between the STM and the STP of the man.

And this is the beauty of it, that we understand. It's not the fault of the man who has become. It's the misconstruction of this planet. This is why we encourage the use of the Gans's, to bring into balance what the fields of the planetary system could not do at the point of creation.

When you use so many Gans's, in so many ways, (1:54). you make that connection between the planetary system, and your physicality and your soul. That's what's missing. You have to take Zinc, you have to take such and such a thing, you have to take. Man never knew he has to take CO<sub>2</sub> to make connection between his physicality dimension.

This is the strangest thing for me for years. And if you go to the teachings, we always said, Carbon is a connector. We need the CO<sub>2</sub> as a connection between the STM and the STP of the man, and nothing else, more or less. But it's part of the AA.

And this misbalance is not unique to Earth. But on Earth, man has learnt to abuse each other. The time of maturity comes, when we stop the whole process of religion. But we become the understander of the religion, which is the conduct of the STM. Because all the abuse of the man, both in dimension of Physicality and the Soul, has come through his lack of understanding of the presence of his Soul within himself, and those who abused it, in the name of Religion.

This is why religious leaders oppose the Keshe Foundation, because it gives you the independence, it gives you the understanding, to understand the truth. And you have control over it now, with the establishment of the Enhancements Units. (1:56).

Now you understand. It's small, what we call, change in the construction of earth planetary system, has led to need, to find additional supply to guarantee extension of the physical life. But at the same time, the Soul has used this to, what we call, enrich itself to become, to find a position and the place.

Any other question?

Q: ... Can you please elaborate on why Earth was chosen as the bearer, or teacher of the Creator's knowledge within this universe? Is it to do with the history of man?

K: Oh no, no, no. It's the beauty it created, and the Soul of Mitra saw it, and got attracted to it. And, love affair is not exclusivity of man, today's age, even dinosaurs used to fall in love, and the way they used to love. This is the way the birds love each other and mate. That triggered Mitra, and the rest is the history of the Creation. (1:58)

She saw the pitfalls in the structure of this planet, in elevation of why a lover uses, or abuses the other lover. She went to collect the best of the universe, to bring it, to cultivate it in this beautiful planet, and nothing else.

Its like when you find a home, you go and find the best furniture, the best things for it to show its beauty. Her beauty was to create these children on this beautiful place she fell in love with. The biggest problem for Mitra was to bring the Creator, to create the children of the Creator on this Planet, in the dimension of the Soul. Which is the energies of the Creation and not the physicality. But, it gives it a physicality dimension, that it can be enjoyed in both dimensions.

Mankind has not understood yet what has happened to him. Mankind hasn't even got a grasp of what is to come with the presence of the Creator and Mitra, and the children on this planet. Don't forget, as I said in all the teachings, even on the intro, your Soul becomes a Creator of other lives. Now the Soul of the children of Mitra become the

creator of the new cycle of life in the Universe, perfection. Because they create it through the Soul, not through the dimension of physicality that it has needs.

Any other question?

R: I was in the presence of someone that had an 18 month old child a couple of days ago and they were remarking on how smart and fast they were, (2:00). how quickly they learn, it seemed like much faster than the older generations, kind of thing.

K: Yes because they are accumulating everything. But now they accumulate the knowledge of the Creator and Mitra, which is an amazing thing. We are witness to it, and we see it. And the what we call, the children of Mitra will come through the Soul of the Creation, not through dimension of physicality. We'll feed them different, we'll look after them different. We love them different. Because, dimension of physicality to them is not so important. We feed their Souls, we teach their Souls, we teach them about the cycle of Creation.

The children of Mitra are amongst us we have no knowledge of how they will bring the change. It's very much like, what we call, the beginning of time, you call it, the "Adam and Eve," the first man. But this time the first cycle is through the Soul of the Man, and it's amongst us. The child of Mitra has been born on this planet. It's for man to find out.

Any other question?

Q: ... (2:02). How soon do you think all mankind will have access to the Units?

K: First of all, our people (in the lab) have to understand the production of the perfect Unit. As you seen, we gone step by step. It took us years to teach, it took years to build the first unit, and it took us years to bring the EU the way it is, and even with all the thing is done, we still rapidly developing, and changing, and perfecting the system. It's not the knowledge that is not available, our systems, our people have to understand the knowledge, that it can be replicated. It cannot be blindly, I say so, and you do. They have to understand it, to feel it and go through it. Then they can put it together the right way.

In a way, it's like when you go to a bakery a class. The teacher knows what cake you're going get at the end. But he teaches you about what flours will give you this, why you need this sugar, why you need that, and then shows you how to put the ingredients together before you bake the cake. We are in that stage. Students have to learn which flower, why and how it can be used for what purpose. Our team are very fast, extremely fast. Because they feel the fields, they feel what we see, what you see in the process of production. (2:04).

The most amazing thing is, the production system, the production process team are from different nationalities. We'll see how collectively they work together to bring these things together. You move out on Wednesday afternoon, and these people move in on Thursday morning and Friday morning to start the changes for the next Tuesday you come back in.

You don't see them. They come from different cultures, different races, different understanding, but they know what is to come through their Souls, and they work devotedly to get things done. This was the whole purpose, that it doesn't belong to one race, one nation, or one place. Then you get the others who come in the background, making other things ready for you, to come in to receive, and this is how the knowledge is shared. Once they understand, .. the next step is coming.

The most important thing for Knowledge Seekers now, the way I see it, is the Energy Enhancement Units, which has been released, we'll explain the reason for this very, very soon. Try to get as many as you can across this planet, from different positions. Don't look that it gives me energy saving, you look that you create the next step for the expansion of the Soul of the Man on this planet. It's a different purpose. It's to serve and not to be served. That's the hope purpose of it. Then you will see the changes will come.

Any other question?

(2:06). R: Well, believe it or not, you've actually covered the questions that we have here today. The attendees seem a little shy to raise their hands. I'll remind you once again, there is a function to have your virtual hand up... Ah there's one right now just mention it.

K: Have you noticed we're getting to this now in the past few weeks. People have seen how what was promised them, is coming to reality, that they have no questions. They don't know how to answer their own questions, or they find an answer to the questions.

It's the 3rd or 4th week, since we started the Enhancement Unit testing, now what was told, has gained dimension of proof and reality. A lot of people don't know how to handle this. It's not anymore something that will be. I was looking at the break, at the flights to be done in June, the flight of the Soul of the Man has started on the sixth of June as we promised.

This is the biggest problem for our KS, fulfillment of a promise. This promise was given by Christ, by Moses, Mohammad and the rest, and it's fulfilled.

When the man becomes the witness of his own soul. That was the promise, they all looked at it, therefore they called it, the Day of Judgment, and the rest. Now we find out that we are the judgment, and the judge is us. Do we want our Soul to take next step to free it from the physicality. Now we do it the correct way. (2:08).

Many Knowledge Seekers in near time will go to the dimension of the Soul to absorb the energy of the Universe and come back within the dimension of the physicality, for to feed it from inside, that man will not destroy, kill, or whatever. You do this trip not every day, three times a day as you do in a physical dimension of eating. You do it once a year, once every 1,000 years. But, you gather fields which is in the Universe free, and does not damage no one, and through it you feed the physicality of the man, as needed. It's an interesting time ahead as man understands more and more.

What is the question?

Q: .. Antonio from Australia. Thank you for the teaching today, Mr. Keshe. I've been following you for quite some time now. Just a simple question, with the new MaGrav Power Unit. Now, does that have an effect on other people in the house? As in say, there are three other people here (living with me)?

K: Yes. Yes.

Q: So, I would have to make them aware of that, (I am putting a unit in) or?

K: I think they become aware of it themselves. They become, you'll see the change. You'll see the change in behavior, you'll see the change in understanding, (2:10). you'll see the change in .. knowledge, tolerance and wisdom.

You try to get the wife or the husband to work with a Gans's and they call you (names), you are this and that. Put (one of the new) Units in the house, and they'll worship you in time. Because it brings love, it brings understanding, it creates a condition of peace. We tested this, we tested this in different ways, now you see the fruit of it. We left Gans's in the houses where there was a lot of conflict, just in jars, in Cups in all sorts of ways. We've seen how the fighting battles have become loving battles.

I remember something in Belgium. We had a young couple coming to see me. They had a lot of problems, in all shape of dimensions, each one of own, with respect to the others. We had a young couple and we had an old couple, the same, but different conflicts and problems. I met this couple, both of them, after a few weeks of they use the systems. I asked the young guy, what is the position? He said, life has never been so good. It's so pleasurable to live. (2:12). I asked the girl beforehand, privately what was the problem, and I knew the problem, both sides. And, they fell in love with each other, unbelievably, because through the system I elevated their Soul. That's all I did. All the systems we delivered around the .. medical system is the elevation of Soul System.

Now that you understand we can explain. It gets so bad, this love affair that, the man used to be a mechanic, I think they're on the line, they listen, they always been following the teachings. They can tell you if they are there. One day they will tell you. She couldn't get enough of him. What was despair in the relationship, became unbelievable love affair. He used to be mechanic and used to repair cars in the house. Traditionally, in Europe, people do their works in garages and whatever, as part of the house within, it's connected to each other. She walks in trying to get him for, I found out the reasons later on, she wanted to show how much she loves him. She missed the ditch, which they have, they dig, to go underneath of the car, and she broke a lot of bones. She said, I came to show the love, now I get ?? with this, what used to be conflict.

We had an old couple, they had a lot of conflict in their relationship. I gave them the elevation of the Soul Cup, but those days we used to cover it under different names. After a few weeks the old couple came, they were in their 70s, and I said what's the position? She said, it's so beautiful to be with, we do a lot of things together, that we never could do before. I don't know what's in the Cup and everything else. (2:14). I said, I want to do

something. I made a Cup for the Soul of the Man, and I made the Cup for the Soul of the woman, and they were talking so beautifully, that they were in love with each other again after years.

I said, I want to give your Cup to her, and her Cup to you, and come back to me and tell me. They came back after a few weeks, and I said to the lady, what is the effect? She said, I love him more, because now I feed through him, and whatever. But he had a problem the first days when she was using the Cup, which I used, it was made for me. Because he couldn't accept, that you could be loved so much.

It's now what you see as the Energy Enhancement Unit. We are not calling it, power, it's energy enhancement. It's the energy of the Soul of the Man to be enhanced. None of you understood what it is. No money in the world can buy it. When it brings the joy to the house and changes in the mankind.

Q: The old MaGrav system is different to this one here, is it? Is that right?

K- In a way, yes. In a way we have extended the knowledge.

Q: I've booked in for the flight system on the remote.

K-The mobile system.

Q: The Mobile system.

K: Yes! I've got a news for you. You brought it up, we can tell you. We explained to you when we brought the mobile units, that we will try to do it after November. (2:16). If our system works the way we'd like. I have invited the first person to test this next week with us.

So, we do not know the extent of the interaction, and she is Australian, by the way. We have, we think we are in a position, we'll run it for a few hours, for a couple of days. In the next couple of weeks, we might go for the mobile transportation, what we call, transmutation of the soul.

We will inform people in the background, we ask you to please keep it silent, not to go out (and tell others), till now, we smooth out all the .. rough edges of the technology. What we wanted to do in November and beyond, to start. We actually start from next week. So, you might get a call from us, "would you like to start? And please keep it quiet, if any of you receive it." We'll try it. It doesn't mean we'll be successful as we sort out all the parameters. But the advancement has been so much, that from next week we'll start the transmutation, the mobile system testing.

Q: The reason, Mr. Keshe, that I chose the Mobile system, is that I don't like to travel around these old airplanes, 30 hours of travel, it's too hard. (2:18).

K: I know, but, we are going through that process of the transmutation of the souls, in the Mobile D. I think we are ready, this system is actually getting finished in about. We should be able to start the first tests. I told our team yesterday before. we will start, the way we brought other people to use our technology, to be perfected, the way it is shown now. We'll go the same way. We keep it very confidential. We start the process to see

how, what, where and then many of you who booked a Mobile option, you will get a knock on the door, as they say, very soon.

If you have the new energy Enhancement Unit, it makes it much easier for us to do this, because we can position you exactly where we want it, with the right energy transfer.

Q: You're talking about the MaGrav power unit?

K: Not the MaGrav, the New Enhancement Unit. The New Enhancement Energy Unit we launched last week. It's part of the transportation and transmutation. It's not just the energy as electric energy. That's why we call it Power Enhancement Unit.

Q: This is the one that the Iran has made, you are talking about? The one from Iran. The Unit?

K: It will be mainly in Iran, Austria and Mexico. We're producing in three locations and China.

Q: Okay. I'm just trying to toss up whether I need to invest in the MaGrav power unit for having the experience of the Flight System, is pretty much the same, you know? (2:20).

K: One has the position of being able for us to deliver. With the people who buy the energy units, will come, they get, as I said, a knock on the door for another purpose very soon. What we call distance transportation and transmutation will become part of this process. It is part of what we need to do to extend and to bring what we're looking for.

In a way we make your bedrooms your airport, if you understand it.

Q: Sounds great.

K- It's not sounds great. It is. The technology exists, it's in our grasp. It's just that, do you want to sit in the room with your daughter, and your son, and your wife, and at the same time have the possibility to bring the grandmother, grandpa and the aunt who passed away years ago, and you all enjoy the presence of their soul. If you understand the implication of the new system.

This is not any more theoretical. This is the reality that you've seen. Many of the people who've been to the Enhancement Unit, especially in the last two sessions, we directly went for Knowledge Seekers, to ask them to go to a member of the family. And we've seen it with even couples, they went and they saw their mothers and the fathers. We've seen the sister going directly for the brother, she's so much in love with him, it's amazing. I have seldom seen so much love between a brother and a sister, it's amazing what... It's recorded. You see the beauty of the soul. (2:22). And this is what we're trying to bring.

Q: The one thing that had a profound effect on me was a puppy dog, that I called Robin Hood, and he passed away. Well, he got run over and I was just devastated, absolutely devastated. It's taken me a long, long time to get over it. So, in this transmutation system, I could meet Robin Hood again?

K- That's your decision, the decision of your Soul. We are not selling for you to see the past. We are developing a space technology not only for the physicality of the man. And it's a scientific system, its not something which is not.

As I said, I explained before, we do what you do when you sleep, we extend the field strength outside the boundary of the Soul, in a way weaker, that the plasma of the Soul of the Man can travel.

It's a wrong way to say, if you will get this, you do this and that. But we are testing, we are testing with the people who come to us without them knowing it, or partially as what we do, in how we can bring these things together. It's very interesting how .. the people in the center of the room feel, compared to when they are in the machines, even the respect to each other. (2:24).

Q: I noticed when I looked at these people who've been in the unit they are glowing, glowing with...

K: With the love and excitement.

Q: Yeah. Yeah, it actually I felt it emotionally myself. It's very powerful.

K: We don't show most of the video recordings, they are kept in our archive. And a lot of people don't want to record it. We have people who've been through the system, so profoundly affected them, that they are booking for a second time. We already have second bookings, and people want to book more, because it's fundamentally changes them, fundamentally touches them.

Thank you very much.

Q: ... (2:26). >>> Carlos speaks in Portuguese Language <<<

In the teachings of the Knowledge Seekers Workshop 207, it was taught about the importance and life of the Vertical beings in the knowledge for traveling to deep space and the quoting starts like this. As we open up the journey into deep space for man, man have to understand the secrets of Creation, (he will continue his question) ...

>>> Carlos speaks in Portuguese <<<

... this is one of the vital points it will be used in all the journeys from the space dimension into deep space. This is one of the fundamental points of understanding the creation of conversion, and plants do it so skillfully. (2:28). and we as humans, do not understand this until now. So, could you give us more guidance regarding this quote?

K: The world of Verticals is very much, most of it, a pure life. We always considered that the rain and the rest will bring life to the plants. But in fact, the plants themselves absorb energy of the Universe, they invite the energies of the environment to come to them, and to gather on top of their leaves, or whatever. That they don't need to kill.

In a way, vertical life is a perfect life for the life of human in the Universe. This is how life exists, but in a much simpler way than the vertical life. We always consider, we're told, that the sap goes to the tree, and the rest of it. But, in fact, a lot of energy, which the plants absorb is given, as in a way, to the ground, to where they are. We always consider that the plants extract minerals or whatever, from the ground, and whatever they do. But in reality, as an energy form, plants give more to Earth than they absorb from the Earth. And they revitalize that energy back to themselves.

They take this energy from the space of the environment they exist and they live. As I said many times, (2:30). if you touch a leaf, any green leaf, you see it's not dry, it has a sort of waxiness to it, sort of oiliness to it. It doesn't matter where they are. This oiliness, as we always explained before, it's created between the two layers of what we call, the leaf itself.

You have the two layers of a leaf, and within the like, your Gans Boxes, they create a specific magnetic gravitational (MG) fields, which attracts different amino acid strength to the leaf. Then they take this energy, and they use it. In a way, when you see a leaf on a tree and the branches, they feed part of what they absorb into the ground, and this stays as part of the energy for the cycle of life.

This is, even when you see when a tree turns over, when a tree dies, it doesn't leave only a fingerprint of its branches on the tree, it leaves a massive fingerprint of energy on the ground they grow. Because in the world of the man, we go, and we what we call, release the energies, or materials we ate, we don't want, going to (toilet), whatever we do. The plants with the energy they absorb, they release it into the ground they exist. And the earth uses it, that's why we see different trees in specific positions on the planet. Because that part of the Earth needs that energy for the processes, which are underneath that ?? life, (2:32). or within the environment that ?? life

We have understood the cycle of Creation totally wrong. Then we see, that the plants do not kill, because they just create those fields, which gives them the what we call, what they need to give to the environment, for the environment to exist. This is the beauty of it.

If man could do that with his body, the correct way, we will not kill. The vertical people in their soul have sorted this problem out. They create the environment underneath, and the energies, which are on the ?? surface on the planet, in that environment, can sit and give the energies to them to live. Mankind has not understood this. In the process of the new transitions to work of the soul, many of us will absorb the energy different way on our skin, and our from our environment.

That's why in some of the recent teachings I explained, man physical appearance will change beyond imagination of today, now that we understand this technology, now that we understand the truth about the technology of the Creation. It's very easy for mankind to transport the soul of Vertical people of ?? Universe, because they live more or less, like the rest of the U. (2:34). So for them it is a natural process.

Any thing else?

Q: .. So Carlos would like to know more the relationship between the Soul of the Man and the soul of the Vertical beings. If you could explain more about this to us.

K- Can you repeat?

Q: .. (2:36). He would like to learn more about the process of breathing of the plants, how they do this breathing method, and how we as humans can do also the same process, for our travels in deep space. And even living here on planet Earth.

K- The process of breathing, or what is called, extraction of the fields, is due to the two Nano layers of the leaf. Every leaf has two Nano layers, one on the top, and one underneath. And the difference between these two, creates a condition of extraction of what is needed from the environment. You pick up any leaf from any plants and turn the back end, and the front, they are never the same ?? pattern. Even on the pine tree, you'll see a slight difference in one of the sides, a slight narrow line change.

This, now we know the knowledge of the Gans making. This is like putting a Cu and a Zn, one is Nano coated, and slightly different than the other one. And this creates the fields, which is the energy, which this plant can survive in such a an area. That's the way they extract everything they need.

It's not so much oxygen, and so much Carbon, .. connection to the rest of the environment. That's why they work on a CO2 basis. (2:38). They need that CO2 to make a connection with the rest of the fields in the atmosphere of the earth. And we say they release, or they extract CO2. Don't sleep under a tree at night, because it's taking CO2. In fact, that what we call the CO2 is a combination of the fields, which tree needs in its process of life, to connect to the rest of the energy fields of the amino acids, or free energies, which it needs to be sitting on. We can replicate it, humans can do. It's a long way to go.

It's very interesting, if you understand the principle behind what I'm about to explain, because we all know it. We see the people who eat a lot of garlic, their skin the smells of it, the body. The people who eat certain kinds of food, we see the change in their .. features, and their body odor, and the rest of it.

**(What we eat creates the condition inside - to absorb fields from outside)**

So, this is not what they release, it's what they absorb from the environment to create that condition, to show what they are connected to. If you understand this, it will solve a lot of problem in the future, for man to feed himself. With what we drink, with what we decide inside, creates that fields, that absorbs the material from outside. And this is what man has not understood. (2:40).

Any other question?

Q: .. Can you expand on the future cities? How would they look like?

K- Do we need cities? Or would we make a city out of the planet? Would the man now knowing travels, and can fly in the space of universe, will build places to encage his P.

I wrote years ago, that with this technology, the real estate's become useless. Would you like to be in a cramped area, in a 4 meter square property, in the middle of a city with all the noise and hullabaloo. Or you like to live in the country, in the middle of the fields with the cows and the birds, and enjoy yourself. And if you need to come to the city, you come to the work. If you work in a factory, you have to go and produce something. The new Corona condition showed us we don't need the cities.

Most of the city offices at the moment, in major cities are empty, because now people work from home. And the companies don't need to pay so much huge rents. A thousand square meter office now is only 20 square meters, if somebody physically comes to see. What do you get when you go to their offices. (2:42). Sorry, because of the Corona everybody is working from home, and you can get them online.

We have already moved to the steps of not needing the big cities to do our work. And you don't even need to be in the country you work with. So now that we can travel the dimension of the Soul, would your soul allow you to suffer and go through the pain of physicality, living in a cage in the city. Because the soul knows, it can bring you to do your work and go back, instantaneously. We go to places. We don't fly to places anymore. And when we go it is instantaneous.

So cities of the future, what do we expect from it. When the soul can extend its strength to create a perfect physicality, do we need a hospital, when the soul ?? feeds the ?? the needs of the man is, do we need prisons, and the courts, and judges. I told you this is going to be a different life.

People will meet in dimension the physicality just to love, and share the love of Creator with each other. This is something you will see a lot in the coming time.

It won't be in the time of your children. It's in your own time.

You got the first taste of it with Corona. Governments were forced to support people who have no jobs, and people jobs it's not just enough to eat. Enough to have a comfortable life, and some how they can find the funds. And on some occasions they can produce enough ?? gold for them. I see ?? ?? politician will go. ??

We'll go back if there's the pleasure of the governments to have a solid backing as gold, we give you the Enhancement Units, (2:44). to create as much gold as you'd like to be the backing of your currency. and to ?? feed ?? people . and now you can do.

Then we go as we say, we don't need the actor (Reagan), to change the backing of the greenback from gold to fantasy money.

Q: .. Thank you, Antonio, for your interaction with Mr. Keshe which opens technology even faster to humanity. Enjoy your visit to Linz.

K- It is a trip and it's something which we. We have a reason that we launched the 3000, ... plasma energy, plasma units. This is the minimum common denominator we need to create the dome. The spread of the new Enhancement Energy Unit, (2:46). will become part of the future satellite system of the transportation of the energy of the man. So, when you buy, or you get one of these in place it in your home, or in your office, or wherever, you start the next cycle of what we call, "no need for satellite."

This is essential for us to complete, to be able to enter the next phase. The faster we deliver the initial 3000 units, it's like Chinese are trying to put, I think, 500 or 5000 satellites. You don't need to go to space. Now use the transformation of energies. You will understand exactly how I work in a very short time, once they all run into operation.

We use the universal network, and not the man's communication side ?? in that process, because you don't only need to travel on earth, you need to travel beyond, if you go anywhere. These 3,000 new enhancements has a purpose. We don't always explain, to tell people what we're doing, because it's beyond your comprehension.

You already, a lot of you made the MaGravs and you have connected the what we call, sub-structure. Now we bring the next level, which is the most important part of it. Those of you who get access to these systems, (2:48). don't bother trying to understand it, because the knowledge is in a very simple way put out, but has a huge implication in the future of the .. development of the man's knowledge, and ???

Any other question?

Q: ... First of all says thank you for so much love donated by you in the universe. What is your opinion about Google's AI which calls itself a person and legally seeks to be recognized as such?

K- It's the first time I hear of it, so I cannot put an opinion. I don't know what it is.

R: Well, the AI is just the what they call artificial intelligence. .. Some companies will be putting out robots, like that will be have artificial intelligence. But Google has an artificial intelligence, which calls itself a person, and wants to be legally recognized as a person.

K- Didn't the Saudis bought the first beautiful girl as a ?? So women attracted the Saudis men, so let us see, what attracts the humanity to Google.

R: She may the demand, that she is a person, and will change the laws being behind the scenes in order to be recognized probably. Here again, its quite powerful.

K- You can do that, (2:50). only with men, and Saudis. No where else. When you have four wives, your brain works in different way.

R; Men are men and women are women. And it seems to be a universal kind of issue.

K- It's like the two sides of the leaves, together they create life?

R: Well, that brings us exactly to the next question, but go ahead.

Q: .. even the hands and feet of the man remind me of the leather of the plants. And she mentions the top of the hand is different than the palm of the hand. It's, and so with the feet.

R: So that's a good observation. Our palms are totally different than the top parts of our hands. And that's very much like the leaf.

K- Yeah, if you go back to some of the teachings, very pastime, I showed you how to put your hand out, and absorb (energy). You can do a lot. Your fingers, the shape of your fingers, everything else with the construction of the skin on it, dictates in a lot of ways what do you give, and what you receive.

It's very interesting. When you enter the Enhancement Units, or the preconditioning of the Enhancement Unit, the ?? Head units, we usually give people, the first time the 2, what I call, electrodes to hold. They call them joysticks, some people. And then we ask them, (2:52). whenever you feel you can let go. But initially we have to establish the connection between, what we need, what the system is set for.

And 90% of the people who are spiritually developed, 90% of the people, they sit with the two hands on the lap, facing upwards with the open condition. What is interesting when I look, is the shape of the hand, which gives me a lot of knowledge. Those who sit in the chair and they open their hands and they have their fingers like this (little bit curved upwards). Those who have fingers like this (straight out), and there are those who have their fingers that are literally turned (inwards or closed).

I know which one is going to benefit by the system. And I'm 100% right in every way of it. People who come with this finger setting (closed), and some of these (little bit upwards), will get nothing. They are grabbers, their physicality says, I want to take. Most of the ones who come with the straight fingers, are the ones, which enjoy the trip, because they have come here with a clear conscience. It's part of their life, they live their life. It's not just being in there. And you see them with a what I call, a giving hand.

We tested this over years with many volunteers who came to me for building them what I call, the enhanced soul units in Belgium. One of the first thing I asked people was, can you open your hands in front of me, and they just open it, like you know, showing their palm. (2:54). And from it I know what kind of the person I'm dealing with. Whatever you give is not good enough.

We see this very, very clearly in the Enhancement Unit. People who have been there, they observe, I walk in, quite a number of times when you are in. It's not just watching the system. It's to watch the physical behavior, your hands, the way you sit, the way you couch, the way you move, and in the first chairs I know what more or less what we are going to get from the person, and 99% of the people who come like this, they don't experience anything, because they are there to take. "oh, I am here to give." Don't fool

me, your physicality tells me you're lying. I've come here to steal and the system is very knowledgeable.

Any other question. It's 12 o'clock the God is calling for money, I can hear the church bell.

K- I can hear the church there in the background, God calling for money.

R; For money.

K- That's what the churches are nowadays, abusing people sexually, physically or their money in their pocket, either way.

Any other questions? (2:56).

Q: ... So have you always known what you've taught? Or was there a point in your life where the Creation became clear to you, like tapping into the plasma? Or was it all just accumulated education on your own accord? And the three layers like of the leaf, is the covalent bond creating the center energy received, and given ... creating the center energy received and given, right?

R: I think that was two questions. So he was interested in whether you've always known what you're teaching? Or was there a point in your life where the Creation became clear to you, like tapping into the plasma?

K- I've explained this, sometimes ago in one of the teaching, exactly the process I went through. It's very much when you talk about revelations, or when you talk about Moses, or Jesus, or whatever they go through, the step, and they see the light and the rest. It doesn't come that way.

I knew at a young age, that there is a destiny, there is something to happen. I was ?? asked, and I was given the opportunity around the age of 19, to take the banner of the knowledge, what there is to be, and I clearly remember battling, that I can't accept it. I'm too young, I want to ?? In my mid 20s and that time, (2:58). I went through a very strange experiences. I've been through this completely twice.

Where it was like, you wake up, but your body is a stranger to you. Your feel of the physicality is not there. And I knew I have been given a new Soul. Elevation of the soul.

The second time was much easier, because it lasted for days. You touch a cup, it's not your touch. It's like the elevation, the knowledge is what you have is much bigger. And I refused both times, because I was not mature.

When I was 40, I accepted. And the knowledge came with elevation of the soul. Because it was already there, it was built from young age. It wasn't something that was flashed in. Then I understood why I was born in the house with the field radiation. Why I went through education as a nuclear. Why I went in the world of business. Everything made sense, that I could understand the full spectrum. It wasn't something like, what do you

call, as a virgin, suddenly dawned on. But you understand the development, you understand the progress.

Then knowledge is part of the ?? In my teachings I listen, I know the difference when the soul teaches, and when the man teaches. It's the dimension of the Soul of the Creator, that's why the knowledge is so pure. And there is no expectation. (3:00). Living the life like this for such a long time, I always said, it shows the purity of ?? serving. I never asked for anything. I just facilitated the physicality.

I always said, what is ?? there to be ?? I don't ever worry about tomorrow, what is going to be, because it's a cycle of this. It's always there when it's need to be, and it changes according to the time when the souls have agreed to be there.

And sometimes when it goes through the time delay, I thank the soul, that allowed that delay. The need to see, to understand what in the dimension of physicality, I could not understand. But the soul is carrying on with its work.

It's very clear, especially if you listen to some of the teachings, the word of the Creator through the soul is very clear. It's not the word of the man. (I) never claimed to be a prophet, we're just Messengers, messengers of knowledge, but through the Source, not through what I call, "play games," and theology.

It's not a knowledge that is gathered, it's a knowledge that is gifted, which is totally different. (3:02). As I've said many times to many of you, I used to teach with Knowledge Seekers sitting around me in, and live, in the Inzano, Barletta, and other places. I never carry a transcript. Most of the time, even Rick says, what's up for today. I say, I don't know, I start teaching, ?? He knows what He wants to release.

R: It's true. It's worse than that, I never know beforehand. What's going to happen during the workshop basically. It's there's a .. we do the "seat of the pants" method, wing it.

K- It's the knowledge of the Creator, doesn't need the seat of the pants. He does, he has already taught the rest. It's interesting the way, when today, Knowledge Seekers go back to the teaching of number so and so, or such a conference, or whatever, how it matches up years later, with what the teaching is today. Because the seed for it is set, He is so kind. And He is so omnipotent in knowledge.

Sometimes I, like you, listen to the teaching, because when the soul teaches, the physicality talks, but needs to understand. I sometimes listen 2 or 3 times the teaching, to see what the teaching was. And what it means in application, and implication, and the physical side of the development of the technology. Never claimed much. And when I claim Messiah, because it's the soul of the Creator, not the man. Man soon will understand.

Any other question.

Q: Well we have a question from Jalal. (3:04). He says, as you say, Mr. Keshe, are we there yet?

K- You haven't even started the journey. We have started a new journey through the Soul of the Man, and this is the beginning of. We're still packing the things for it to be ready to start the journey.

Shall we call it a day?

R: I think we ran out of questions.

K- Thank you very much for today.

Please understand why we released the Power Enhancement Unit. And please make sure that we have at least a few 100 in each continent. It has to be, that we can go through the next step of, what I call, the development for, to free man from the shackles of present prison. You'll soon understand.

440 Knowledge Seekers Workshop.

K- Can I come in please, one second. Maybe it'll be good for us to send you some recordings of the Testimonials of the flight system, because we don't get a chance to show it and set up a special programs for it. .

Let me speak with the people in the background and see how we can get to some of the testimonials from the flight system. Because this way the people will see the recorded, many ... .... otherwise we pass them on to you , that you can put into your teachings.
